we present a comparative epistemological analysis of the wisdom motifs in psalms 1 73 90 and 107 these texts were selected on the basis of their epistemological content each confronts the relationship between virtue and prosperity and their canonical placement within the psalter each begins one of the psalter s five books we explore the implications of their respective epistemological features for our understanding of the canonical structure of the psalter after developing a diagnostic method for the identification and analysis of the epistemological features within a biblical text we apply it to each of the four psalms and discuss their epistemological qualities with respect to their canonical placement in the psalter we find that an epistemic progression develops across the canonical ordering of the four psalms while the psalmists are increasingly forthright in acknowledging the moral paradox that the righteous often suffer while the wicked can prosper they engage this paradox with ever more sophisticated responses although yhwh is ultimately the source of all wisdom human beings can facilitate their acquisition of knowledge by seeking him out intentionally by questioning him directly and by observing him with a heart focused on learning

theatre in the expanded field is a fiercely original bold and daring exploration of the fields of theatre and performance studies and the received narratives and histories that underpin them rich with interdisciplinary reference international eclectic and broad ranging in its examples it offers readers a compelling and provocative reassessment of the disciplines one that spans pre history to the present day sixty years ago in 1962 richard southern wrote a remarkable book called the seven ages of the theatre it was unusual in its time for taking a trans disciplinary new historical and avowedly internationalist approach to its subject nothing less than a totalizing view of its field theatre in the expanded field does not attempt to mimic southern s work but rather takes his spirit of adventure and ambition as its frame for the contemporary moment of performance and its diverse pasts identifying seven ways of exploring the performance field from pre history to postdramatic theatre the book presents studies of both contemporary and historical works not as a chronological succession but in keeping with their coeval qualities as movements or generations of connection and interaction dissensus and interruption it does this with the same purpose as richard southern s original work to provide for the planning of responsive performance spaces now illustrated throughout with line drawings theatre in the expanded field is as richly rewarding as it is ambitious and expansive in it vision

a bible student reference a new testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before jesus christ returns in glory is being fulfilled now and is shortly to end yet christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that christ s return is therefore now almost upon us how and why this is the case is here explained thoroughly and logically with many examples directly from the word of god in god s saving plan for the world everyone must in time make a free will choice to become part of the israel of god in order to access eternal life in the kingdom of god the route to take is the strait and narrow way mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this israel embark on this voyage only if you

are willing to be challenged about some basic christian preconceptions be a serious open minded bible student and trust what the bible teaches but remember that time is short what the bible has taught me i see as both vital and urgent for our eternal salvation yet i know of no church or individual theologian who teaches what this book deals with in any substantive way be prepared for major challenges to your understanding just as god has challenged me in the epistles paul refers to two israels whom he calls israel after the flesh i cor 10 18 and the israel of god gal 6 16 i focus mainly on the latter but i also explain an unexpected but critically important connection between them dependent on the teaching nearly all christian denominations either teach nothing at all on it or almost the opposite of what scripture repeatedly showed me looking back i find this absolutely staggering very few christians understand that the new covenant also only applies to israel as i will clearly show i no longer believe that the nt new testament can be fully understood without this extra israel dimension had i felt i could deliver this in a more light hearted way i would have done so but its implications are too awesome and fundamental to our eternal life prospects for that
