this book addresses intertextual connections between lamentations and texts in each division of the hebrew bible along with texts throughout history sources examined range from the dead sea scrolls to modern shoah literature allowing the volume s impact to reach beyond lamentations to each of the intertexts the chapters address by bringing together scholars with expertise on this diverse array of texts the volume offers a wide range of exegetical insight it also enables the reader to appreciate the varying intertextual approaches currently employed in biblical studies ranging from abstract theory to rigid method by applying these to a focused analysis of lamentations this book will facilitate greater insight on both lamentations and current methodological research

the book of lamentations is one of the most vivid representations of grief and trauma in the hebrew bible written in the wake of the fall of jerusalem to the babylonian empire it is comprised of five poems of twenty two stanzas each in a manner of tight formal unity unparalleled by any other work in the scriptures in this volume widely respected old testament scholar john goldingay analyzes these and other aspects of lamentations while keeping a constant eye on the book s meaning and use as christian scripture after a thorough introduction that explores matters of background composition and theology goldingay provides an original translation of the book from the masoretic text along with verse by verse commentary

sworn enemies explains how the book of ezekiel uses formulaic language from the exodus origin tradition especially yhwh s oath to craft an identity for the judahite exiles this language openly refutes an autochthonous origin tradition preferred by the non exiled judahites while covertly challenging babylonian claims that yhwh was no longer worthy of worship after specifying the layers of meaning in the divine oath

the book shows how ezekiel uses these connotations to construct an explicit public transcript that denies and mocks the non exiles appeals to a combined abraham and jacob tradition e g ezek 35 simultaneously ezekiel employs the oath s exodus connotations to support a disguised polemic that resists babylonian claims that yhwh was powerless to help the exiles when yhwh swears as i live the text goes on to implicitly replace marduk with yhwh as the deity who controls nations and history e g ezek 17 ezekiel thus shares the monotheistic concepts found in deuterio isaiah and elsewhere finally using james c scott s concept of hidden transcripts the author shows how both polemics cooperate to define a legitimate judahite nationalism and faithful yahwism that allows the exiles to resist these threatening others

ingrid hjelm examines the composition of the books of kings using the hezekiah narratives in 2 kings 18 20 as a focus she argues that this narrative is taken from that of the book of isaiah with which it shares linguistic and thematic elements in kings it is used with the specific purpose of breaking the compositional pattern of curse which threatens to place jerusalem on a par with samaria jerusalem traditions are examined against theories of a late yahwist author and the pentateuch s origin within a jerusalem cult while the pentateuch in its final form became a common work acceptable to all groups because of its implied ambiguity the deuteronomistic history s favoring of david and jerusalem holds a rejection of competitive groups as its implied argument

in soundings in kings international scholars examin 1 and 2 kings as an independent work identifying new methods and models for envisioning the social location of the authors or redactors of kings the nature of the intended audience or audiences and the political and rhetorical implications of its construction soundings in kings demonstrates the role of kings as a cornerstone work within the hebrew bible a crossroads between prophecy poetry wisdom ancestral and national narrative and ritual instruction
