real current macroeconomic events connected to the theory the new fourth edition of blanchard s respected macroeconomics text has been substantially revised to account for the impact of the gfc on the australasian economy and the many issues it raises thus in addition to a first discussion of the crisis in chapter 1 and numerous boxes and discussions throughout the book we have brought forward the chapter on the gfc to chapter 9 macroeconomics is the only intermediate resource with a truly australasian focus demonstrating economic ideas and issues with hundreds of local and international examples this comprehensive resource presents an integrated view of macroeconomics drawing on the implications of equilibrium conditions in three sets of markets the goods market the financial markets and the labour market

the fundamental goals of the book are to provide an integrated view of macroeconomics and to make close contact with current macroeconomic events

while this adaptation has a similar look and feel to the us text and retains the underlying coherence balance and integrity of the original book

this book demonstrates falsified economic performance of global economies when the environment is not recognised as a capital and when the ecosystem is overlooked towards sustainable development seek begins with an analysis of standard macroeconomic framework and policy practice he argues with reference to environmental accounting literature that environmental capital must form an integral component of economic measurement this paves the way for an alternative environmental macroeconomics framework for policy analysis that promotes sustainable development the book demonstrates how environmental capital can be measured with reference to select oecd countries and provides a methodology for analysing how macroeconomic goals are related to a steady state economy seek then concludes with a summary of the conflict between current economic growth and ecosystem preservation and outlines possible policy improvements and directions for research rethinking sustainable development is an invaluable reference for policymakers as well as researchers and students of environmental economics sustainable development and macroeconomics

the brief and student friendly approach of this book boils economics down to its essentials by considering what is truly important for students to learn in their first course in economics in keeping with the authors philosophy of showing students the power of economic tools and the importance of economic ideas this edition pays careful attention to regional and global policies and economic issues including the impacts of the ongoing global financial crisis inflation unemployment interest rates and monetary and fiscal policy continuing global financial uncertainty and the current state of the australian economy provide a constant supply of new material re evaluated models and policy changes and updates for the principles of macroeconomics text the book emphasises the material that students should and do find interesting about the study of the economy resulting in a focus on applications and policy and less on formal economic theory principles of macroeconomics 7e encourages students to make their own judgements by presenting both sides of the debate on five controversial issues facing policymakers the proper degree of policy activism in response to the business cycle the choice between rules and discretion in the conduct of monetary policy the desirability of reaching zero inflation the importance of balancing the government s budget and the need for tax reform to encourage saving
