america is in the midst of a genealogy boom in the last thirty years the number of americans who said they were very interested in family history jumped from 29 to 87 online genealogy sites like ancestry com went from being a small genealogical research website into a nasdaq listed corporation with more than two million subscribers in roots quest sociologist jackie hogan digs into this genealogy boom to ask why we are so interested in our family history she goes beyond simple demographics retiring baby boomers with more time on their hands to show that the surging popularity of genealogy is in part a response to some of the large scale social changes transforming our lives such as the increasingly virtual nature of social life and the sense of rootlessness these transformations provoke roots quest explores the way our increasingly rootless society fuels the quest for authenticity for deep history and for an elemental sense of belonging for roots

from 9 11 to covid 19 the twenty first century looks increasingly dystopian and so do its television shows long form science fiction narratives take one step further the fears of today liberal democracy in crisis growing economic precarity the threat of terrorism and omnipresent corporate control at the same time many of these shows attempt to visualize alternatives using dystopian extrapolations to spotlight the possibility of building a better world programming the future examines how recent speculative television takes on the contradictions of the neoliberal order sherryl vint and jonathan alexander consider a range of popular sf narratives of the last two decades including battlestar galactica watchmen

colony the man in the high castle the expanse and mr robot they argue that science fiction television foregrounds governance as part of explaining the novel institutions and norms of its imagined futures in so doing sf shows allegorize and critique contemporary social political and economic developments helping audiences resist the naturalization of the status quo vint and alexander also draw on queer theory to explore the representation of family structures and their relationship to larger social structures recasting both dystopian and utopian narratives programming the future shows how depictions of alternative world political struggles speak to urgent real world issues of identity belonging and social and political change

for the past four decades increasing numbers of americans have started paying greater attention to the food they eat buying organic vegetables drinking fine wines and seeking out exotic cuisines yet they are often equally passionate about the items they refuse to eat processed foods generic brands high carb meals while they may care deeply about issues like nutrition and sustainable agriculture these discriminating diners also seek to differentiate themselves from the unrefined eater the common person who lives on junk food discriminating taste argues that the rise of gourmet ethnic diet and organic foods must be understood in tandem with the ever widening income inequality gap offering an illuminating historical perspective on our current food trends s margot finn draws numerous parallels with the gilded age of the late nineteenth century an era infamous for its class divisions when gourmet dinners international cuisines slimming diets and pure foods first became fads examining a diverse set of cultural touchstones ranging from ratatouille to the biggest loser finn identifies the key ways that good food has become conflated with high status she also considers how these taste hierarchies serve as a distraction leading middle class professionals to focus on small acts of glamorous and

virtuous consumption while ignoring their class's larger economic stagnation a provocative look at the ideology of contemporary food culture discriminating taste teaches us to question the maxim that you are what you eat

envisioning legality law culture and representation is a path breaking collection of some of the world's leading cultural legal scholars addressing issues of law representation and the image law is constituted in and through the representations that hold us in their thrall and this book focuses on the ways in which cultural legal representations not only reflect or contribute to an understanding of law but constitute the very fabric of legality itself as such each of these readings of cultural texts takes seriously the cultural as a mode of envisioning constituting and critiquing the law and the theoretically sophisticated approaches utilised here encompass more than simply an engagement with harmless entertainment rather they enact and undertake specific political and critical engagements with timely issues such as the redressing of past wrongs recognising and combatting structural injustices and orienting our political communities in relation to uncertain futures envisioning legality thereby presents a cultural legal studies that provides the means for engaging in robust sustained and in depth encounters with the nature and role of law in a global mediated world

for fans of survivor and less this fast paced debut novel shines an unflinching light on the drama of reality tv when a gay man returns to the cut throat show he won in his youth after his adult life begins to unravel following the car accident that ended his football career and left his body scarred twenty two year old luke griffin joins the cast of endeavor a new competition based reality show that pits the tabloids darlings against one another in tasks of endurance and problem solving at first he thrives effortlessly forming friendships and even a romantic relationship that he thinks will last a lifetime but luke has aspirations

far bigger than the show's million dollar prize and soon a series of betrayals leads to irreversible tragedy changing the course of his and his fellow contestants' lives forever. Ten years later, Luke's world looks very different: he is now a father of two and the stay-at-home husband to America's only openly gay senator. When his husband's serial cheating is exposed, Luke impulsively joins the cast of *Endeavor*'s latest season in a desperate bid to earn some fast cash. Back on set, he is confronted with everything he tried to leave in the past: bitter rivalries, shattered friendships, and crushing guilt, all of which threaten to tear down the walls he's spent a decade building. As season 20 of *Endeavor* kicks off, Luke must give everything to the game, even as he finally learns what it means and what it costs to face the truth. Combining the fabulous rivalries of the traitors with the epic physical stunts of the challenge, the book of Luke offers a grounded portrait of what it means to reinvent yourself when no one will let you forget your past, especially if it's immortalized on streaming services.

Through the analysis of over seventy films and thirty television series ranging from *Shortbus*, *Sweet Home Alabama*, and *Poseidon* to *Noah's Arc*, *Brothers & Sisters*, and *Dawson's Creek*, Goltz examines reoccurring narrative structures in popular media that perpetuate the extreme value placed upon young gay male bodies while devaluing health, aging, and longevity alienated from the future outside of limited and exclusionary systems of marriage and procreation. The gay male is narrated within a circular tragedy that draws upon cultural mythologies of older gay male predation, the absence of gay intergenerational mentorship, and the gay male as sacrificial victim. Using a Burkean framework, Goltz makes a theoretical, rhetorical, and cultural investigation of how the increased visibility of positive gay representation in dominant media shapes contemporary meanings of gay aging, heteronormative future, homonormative future, and queer potential.

this work shows that while the series the west wing may be criticized as idealistic its clever techniques of camera work lighting editing and mise en scene reflect america s best image of itself and entertain a loyal audience that wants to believe in the nobility of the american dream
