the model contract for oil and gas development known as the production sharing contract psc originated in indonesia in 1966
 and enjoyed over a decade of successful implementation with minor adjustments in several oil producing countries in more
 recent years however numerous problems have arisen as changes in economic realities have driven the level of private
 investment down this penetrating study the only one of its kind uses legal analysis as well as historical data to pinpoint the
 reasons for the initial success of the psc and for its subsequent and persistent frustrations for investors the author first examines
 the original indonesian contract along with the variants adopted in malaysia and the people s republic of china and then
 proceeds to an in depth analysis of the main clauses and their amendments and execution in all three countries taking into
 account various commissioned surveys and emerging policies and strategies espoused by both governments and industry
 representatives he concludes with a detailed proposal for an overhauled contract that allows for meaningful adjustments or even
 renegotiation when the balance of interests between parties changes substantially focusing as it does on some central issues in
 global economic development the indonesian production sharing contract will be of great value to lawyers multinational
 corporate executives and policymakers far beyond the asia pacific region

this is an open access book shipping is one of the transportation sectors that has a significant impact on the environment and energy use therefore it is important to develop environmentally friendly and efficient solutions in the shipping sector this international conference aims to discuss and find solutions to challenges in developing environmentally friendly and energy efficient shipping some of the challenges that will be discussed include air and sea pollution excessive use of fossil fuels and the impact of climate change in this conference it is hoped that there will be an exchange of knowledge and experience between experts practitioners and academics in the field of shipping apart from that it is also hoped that collaboration will be formed to develop innovative and sustainable solutions through this conference it is hoped that effective solutions can be found and can be implemented in the shipping industry to reduce negative impacts on the environment and increase energy efficiency with environmentally friendly and energy efficient shipping it is hoped that sustainable development goals can be achieved which will have a positive impact on the environment and society as a whole
