venice settled in the 5th century in the lagoons of the adriatic sea was always a maritime nation but by the 12th century had become the prime trading centre between the eastern mediterranean and europe the waters of medieval and renaissance venice thronged with watercraft rotund merchant ships sleek warships humble fishing boats and sturdy lighters pleasure craft and gondolas but what were they like what were their characteristic features what is known of the construction techniques

the long neglected red sea shore area has over the past ten years yielded a considerable amount of data that has enabled us to understand its specific role in pharaonic times in 2001 fieldwork resumed in the former harbour of mersa gawasis which was first identified by abd el moneim sayed in 1977 the rich archaeological and epigraphical findings by a joint american italian team demonstrated that the site was used throughout the 12 dynasty as a launching harbour for expeditions to the land of punt which lay to the south of the red sea north of the gulf of suez vestiges of a harbour built early on in the old kingdom were progressively unearthed at the site of ayn soukhna which was discovered by mahmoud abd el raziq in 1999 the full remains

of middle kingdom vessels were found there stored in onsite galleries between expeditions to the copper and turquoise mining sites of the sinai the aim of this conference which was held in cairo and ayn soukhna in january 2009 was to bring together most of the specialists studying the red sea shore area and its relations with the nile valley the proceeding s give an overview of the most recent research on this strategic zone during the pharaonic period page 4 of cover

viking shipwrecks are amongst the most abundant and best preserved archaeological remains of a culture which has always exercised a strong hold on the imagination underwater archaeology therefore provides the key to understanding a people that have been portrayed in historical sources as a marauding and pillaging horde who arrived in their longships to terrorise communities on the coasts of britain france and ireland in recent decades archaeological discoveries have presented us with a more balanced picture of a seafaring culture that established a network of trade and settled urban life across a vast region from the black sea to newfoundland from around ad 750 to 1150

proceedings of the first international conference on the significance of portages 29th sept 2nd oct 2004 in lyngdal vest agder norway arranged by the county municipality of vest agder kristiansand conveying craft and their cargoes between navigable waterways portages represents a hitherto neglected feature of past transport geography the idea of arranging an international conference on this subject first appeared during the mid 90s when it seemed that it would be a good idea to create and maybe also develop a preliminary network bringing together a number of people who shared a common field of research this conference was eventually planned for september october 2004 and in this volume the original english papers and some translated from the nordic session have been brought together their subjects range geographically from greenland to russia chronologically from the mesolithic to late medieval and to a certain extent modern times the environments ranged from coastal to inland inter river sites and the topics from linguistic and etymological interests to myth making ritual and the experimental handling of boats at portages a goal of the conference was to create an international network and the embryo of such a network has been included in the proceedings another ambition to include good bibliographies on the subject and its wide ranging ramifications has also been achieved
