drawing on the underrepresentation of the global south in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within global southern epistemologies in english language teaching elt and teaching english to speakers of other languages tesol chapters consider the epistemological landscapes of these fields their dedication to english teaching and english related topics and the intersection of the coloniality of language and the supremacy of english worldwide the book explores the type of discussion that is needed to advance a more nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of elt and tesol in doing so chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the global north and further exploring ways of decolonizing language practices teaching approaches and research cultures calling for greater visibility and recognition of southern ways of knowing within elt and tesol practice and research the book will be an essential reading for scholars researchers and students of tesol elt applied linguistics and multilingualism

we live in a learning society more and more research is being done on how people learn this practical book looks at current theories of learning how they have developed and demonstrates how these can be put into practice education and learning are separate things learning is a human phenomenon essential to growth and development occurring throughout life with or without a teacher the authors begin with a broad examination of the social changes that have made learning such a central concept in contemporary society and discuss the definition of learning the current theoretical approaches to learning are then presented in clear understandable terms with an in depth discussion of the strengths and weaknesses of each approach the book ends with an introduction to the literature and forms of adult learning and suggestions on how each type can be used in either an educational or human resource developmental setting

unique in the way it links five major career development and choice theories to a fictional case client this user friendly text is ideal for

counselors engaged in helping clients make wise career choices thoroughly updated the third edition of career theory and practice takes a multicultural approach as it blends theory practical examples and specific cases helping readers apply a wide range of career development theories to counseling clients

this book makes an important contribution to contemporary debates over the place of civic participation in democratic theory and practice drawing on a detailed case study of the blackbird leys area of oxford the book employs a novel empirical approach to ask whether widespread participation in civic life can enhance the prospects for democracy given the low levels of participation which tend to exist in deprived areas throughout it presents an account of participation rooted in the history and development of the case in order to avoid the kinds of abstraction which are characteristic of many existing studies in the area the book will appeal to scholars working on democratic theory in applied settings and will be of interest to anyone concerned with inequalities in civic participation

theory has been used widely in the field of second language writing second language writing specialists teachers researchers and administrators have yet to have an open and sustained conversation about what theory is how it works and more important how to practice theory practicing theory in second language writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field
