traces the life of blunt art historian and russian spy explains how he became involved in espionage and discusses his relationship to kim philby

when anthony blunt died in 1983 he was a man about whom almost anything could be said and was said as surveyor of the queen s pictures and director of the courtauld institute blunt s position was assured until his exposure in 1979 left his reputation in tatters miranda carter s brilliantly insightful biography gives us a vivid portrait of a human paradox blunt s totally discrete lives with their permanent contradictions serve to remind us that there is no one key to any human being s identity we are all a series of conflicting selves

through previously unpublished documents this volume revisits the public furore 40 years ago when the british academy chose not to expel from its fellowship the eminent art historian anthony blunt who had been exposed as a former soviet spy david cannadine portrays the main characters in this episode which rocked the academic establishment

in this groundbreaking new book jones shows how some of the major determining leaders in modern thought and culture have rationalized their own immoral behavior and projected it onto a universal canvas the main thesis of this book is that in the intellectual life there are only two ultimate alternatives either the thinker conforms desire to truth or he conforms truth to desire in the last one hundred years the western cultural elite embarked upon a project which entailed the reversal of the values of the intellectual life so that truth would be subjected to desire as the final criterion of intellectual value in looking at recent biographies of such major moderns as freud kinsey keynes margaret mead picasso and others there is a remarkable similarity between their lives and thought after becoming involved in sexual license early on they invariably chose an ideology or art form which subordinated reality to the exigencies of their sexual misbehavior

in 2008 the musée des beaux arts de lyon acquired a painting called the flight into egypt which was attributed to the french artist nicolas poussin thought to have been painted in 1657 the painting had gone missing for more than three centuries several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum a painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two

decades later by the musée des beaux arts de lyon for 17 million euros what does this remarkable story tell us about the nature of art and the way that it is valued how is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure this is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred focusing on this extraordinary case bernard lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price he thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it and through the history of this painting lahire uncovers some of the fundamental structures of our social world for the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority by following the trail of a single work of art lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art

publication coincides with the 400th anniversary of the artist s birth and a forthcoming exhibition
