history remembers empires for their monuments and rulers but their real strength lay in the network of survival that connected centers to edges this network rested on four pillars roads that carried grain and armies rails that bound nations in the age of steam cars that bridged rural families to work and education and stories that preserved meaning long after stone and steel had crumbled across centuries from the via appia to ottoman shipping routes from fortified harbors to village backroads these connections made survival possible for empires for cities for families though their forms change stone iron asphalt or word their purpose endures to carry life across distance and to keep it connected

perfect for tourists business travelers anglophiles and yankophiles this book is an irreverent and indispensable guide to understanding the great cultural ocean that divides britain and america

this book provides an innovative analysis of the survival movie genre from an orthodox christian anthropological perspective grounded in the orthodox tradition the approach builds from the first chapter of genesis where man is described as made in the image and after the likeness of god it offers a nuanced theological exploration of the concept of the survival movie and examines a number of significant cinematic creations illustrating how issues of survival intersect romantic western science fiction and war films the author reflects on how survival movies offer a path for the study of human nature given they depict people in crisis situations where they may reveal their true characters as well as discussing the role of a limit situation as a narrative element the book highlights the spiritual aspect of survival and points to the common hope in survival movies for something more than biological survival it is valuable reading for scholars working in the field of religion and film

the rough guide to surviving the end of the world is a light hearted yet well informed look at threats to the very existence of life on earth how we might be able to deal with them and if things go truly horribly wrong how we might just be able to survive written by scientist and sci fan paul parsons this gripping book examines scenarios ranging from megafloods to space radiation supervolcanoes to bioengineering and what you should do when the sh t hits the fan along the way we meet some of the lesser trodden paths to oblivion including the possibility that the human race will be gripped by mass stupidity and the outrageous idea that life on earth could all be one giant matrix style computer simulation that its creators might one day decide to switch off all are placed under the scientific spotlight and presented with clarity and humor to survive armageddon you need the best advice and information available which is here presented in ample detail and capturing every plausible catastrophic scenario now available in epub format

this book challenges the widely held assumption that a nuclear armed iran would provoke a proliferation cascade in the middle east arguing that a domino effect is by no means

inevitable the authors set out a number of policy measures that could be enacted by the international community to reduce this risk

us foreign policy and iran is a study of us foreign policy decision making in relation to iran and its implications for middle eastern relations it offers a new assessment of us iranian relations by exploring the rationale effectiveness and consequences of american policy towards iran from the aftermath of the 1979 iranian revolution to the present day as a key country in a turbulent region and the recipient of some of the most inconsistent treatment meted out during or after the cold war iran has been both one of america s closest allies and an axis of evil or rogue state targeted by covert action and contained by sanctions diplomatic isolation and the threat of overt action moreover since the attacks of 11 september 2001 iran has played a significant role in the war on terror while also incurring american wrath for its links to international terror and its alleged pursuit of a nuclear weapons programme us foreign policy and iran will be of interest to students of us foreign policy iran middle eastern politics and international security in general donette murray is a senior lecturer in the department of defence and international affairs at the royal military academy sandhurst she was awarded a phd in international history by the university of ulster in 1997

within the rhetoric on transatlantic relations the consensus prevails that in order to cope with global challenges constructive engagement and effective cooperation between the united states and its european partners is required however regarding actual policy making particularly subsequent to 9 11 and the war in iraq conflicting agendas and policies on both sides of the atlantic are easily discernible the articles in this book deal with various societal political and security issues constituting frame and context of the transatlantic relationship in order to explain the contradiction between declarations and deeds and to evaluate the chances for narrowing the policy gap

overview of the origins and evolution of the transatlantic relations since the second world war the author pays particular attention to the u s relationship with great britain and its impact upon intra european debates foreword
