this landmark volume presents the results of a comprehensive and coherent in depth assessment of ethiopian agriculture and draws lessons from it to generate actionable recommendations that will inform policy decisions and priority setting for agricultural transformation across africa policy makers in africa are faced with the challenges of ensuring food and nutrition

security and the economic wellbeing of their rapidly growing populations while at the same time maintaining the integrity of their natural resource base between 2000 and 2021 74 of the growth in overall crop production on the continent was derived from increases in land area expansion while increases in yield contributed only 26 of the growth this unchecked expansion of land use puts the sustainability of the natural resource base under severe pressure this book draws on a unique set of case studies from ethiopia described and told from a truly african perspective
