decisions and problems can often leave people with a dilemma knowing that a decision is required but uncertain how to ensure that it is the best one and that it will be successfully executed the paradox is that the very pressure for a decision often breeds indecisiveness think on your feet addresses this fundamental problem enabling you to find the best solutions and options avoid pitfalls managerisk work with people to ensure that decisions succeed and understand how you can improve the way you typically operate when making decisions

making a decision of any importance is never simple on the one hand specialists in decision theory do not come within the reach of most policy makers and secondly there are very few books on pragmatic decision that are not purely anecdotal in addition there is virtually no book that provides a link between decision making and action this book provides a bridge between the latest results in artificial intelligence neurobiology psychology and decision making for action what is the role of intuition or emotion what are the main psychological biases of which we must be wary how can we avoid being manipulated what is the proper use of planning how can we remain rational even if one is not an expert in probabilities

perhaps more importantly for managers how does one go from decision to action so many questions fundamental to the practice of decision making are addressed this book dissects all issues that arise almost daily for decision makers at least for major decisions drawing on numerous examples this book answers in plain language and imagery all your questions the final chapter takes the form of a brief reminder everything you have to remember to be a good decision maker

building on lecture notes from his acclaimed course at stanford university james march provides a brilliant introduction to decision making a central human activity fundamental to individual group organizational and societal life march draws on research from all the disciplines of social and behavioral science to show decision making in its broadest context by emphasizing how decisions are actually made as opposed to how they should be made he enables those involved in the process to understand it both as observers and as participants march sheds new light on the decision making process by delineating four deep issues that persistently divide students of decision making are decisions based on rational choices involving preferences and expected consequences or on rules that are appropriate to the identity of the decision maker and the situation is decision making a consistent clear process or one characterized by ambiguity and inconsistency is decision making significant primarily for its outcomes or for the individual and social meanings it creates and sustains and finally are the outcomes of decision processes attributable solely to the actions of individuals or to the combined influence of interacting individuals organizations and societies march s observations on how intelligence is or is not achieved through decision making and possibilities for enhancing decision intelligence are also provided march explains key concepts of vital importance to students of decision making and decision makers such as limited rationality history dependent rules and ambiguity and weaves these ideas into a full depiction of decision making he includes a discussion of the modern aspects of several classic issues underlying these concepts such as the relation between reason and ignorance intentionality and fate and meaning and interpretation this valuable textbook by one of the seminal figures in the history of organizational decision making will be required reading for a new generation of scholars managers and other decision makers

using real world examples moody s simple nontechnical descriptions make even the most sophisticated decision techniques easy to grasp and apply includes descriptions of brainstorming the delphi technique force field analysis utility theory and more 67 illustrations

why do the people in some companies continually dazzle us with their brilliant decisions while those in others make one blunder after another do they understand their businesses better are they just plain smarter or is it all a matter of luck the answer says j frank yates is none of the above the real key rarely recognized is how the leaders manage the company s decision processes the leaders decision management practices drawing on his thirty years of research and experience as well as scholarship from psychology economics statistics strategy medicine and other fields to explain the fundamental nature of business decision problems yates highlights the ten cardinal decision issues crucial to managing the decision making process and ultimately better company decisions he covers problems ranging from recognizing whether a decision is actually called for to assuring that a preferred course of action will be implemented he shows how solid decisions result when managers ensure that deciders resolve every cardinal issue effectively for every decision problem facing the company he also reveals how conversely chronically poor decisions are traceable to managers allowing or even creating conditions that encourage deciders to fall short in how they address at least one of those critical issues

why is it so important to understand what drives us to act in everyday life how do we make decisions what thought structures do we follow to determine our choices in this guide you will find a simple clear and comprehensive explanation of what it means to make a decision and how to improve the process of choosing in the face of uncertainty every day people have to make estimates evaluations and decisions about thousands of possibilities science has shown that expert decision makers make choices differently from ordinary people this guide takes the reader by the hand and takes them through four step by step passages that highlight the key issues what it means to make a decision and what the main scientific theories on decision making are how cognitive errors and bias work when we make decisions what role emotions play in choice processes what the limits are and how far one can go in this field learning to make functional and effective choices is a skill that can be learned by anyone but only if they have the right knowledge and put it into practice this guide is accompanied by numerous invitations to self analysis and practical exercises so as to offer the reader a true path of personal development

the analysis of decision making under uncertainty has again become a major focus of interest this volume presents contributions from leading specialists in different fields and provides a summary and synthesis of work in this area it is based on a conference held at the harvard business school the book brings together the different approaches to decision

making normative descriptive and prescriptive which largely correspond to different disciplinary interests mathematicians have concentrated on rational procedures for decision making how people should make decisions psychologists have examined how people do make decisions and how far their behaviour is compatible with any rational model operations researchers study the application of decision models to actual problems throughout the aim is to present the current state of research and its application and also to show how the different disciplinary approaches can inform one another and thus lay the foundations for the integrated analysis of decision making the book will be of interest to researchers teachers for use as background reading for a decision theory course students and consultants and others involved in the practical application of the analysis of decision making it will be of interest to specialists and students in statistics mathematics economics psychology and the behavioural sciences operations research and management science

discover the best approaches for making business decisions today s business leaders have to face the facts you can t separate leadership from decision making the importance of making decisions no matter how big or small cannot be overstated decision making for dummies is a candid resource that helps leaders understand the impact of their choices not only on business but also on their credibility and reputation designed for managers business owners and anyone else who makes tough decisions on a daily basis this guide helps you figure out if the decisions you re making are the right ones in addition to helping you explore how to evaluate your choices decision making for dummies covers ways to receive support for decision making delves into various decision making styles reviews the importance of sifting through data and information and includes information on ways to engage others and make decisions collectively being in charge can be challenging but with this guide you don t have to go it alone discusses the effects of decision making and outlines the considerations that must be made to gain trust and confidence demonstrates ways to communicate particularly sensitive decisions and offers approaches for making bold decisions that challenge the status quo delves into the risks and benefits of certain decisions and shows readers the best ways to evaluate choices outlines smart strategies for engaging others and drawing them into the decision making process crucial decisions need to be made every day in the business world so there s no time to waste make decision making for dummies your primary resource for learning to choose your actions wisely and confidently

a long awaited second edition of the book which has sold tens of thousands in e book format and helped business students

and professionals all over the world make smarter decisions smart things to know about decision making takes a look at all types of decisions we must make from the mundane to the insane smart decision makers have the guts to size up a situation look at the alternatives and decide they alleviate the risk by using a process to come to the best decision smart things to know about decision making reveals a five step process to help make successful decisions preparing to decide define the purpose and take a preliminary look at the financial case creating options never assume that there is only one possible way of solving a problem evaluating the options create the criteria that needs to be met and analyse the risks making the decision phew that was the hard part implementing the decision your decision is not complete until you've created an action plan recorded and re evaluated your decision this new edition contains updated examples links and content including pedagogical exercises to assist learning

this text provides an integrated approach to decision making as a subject with particular emphasis on how decisions are made and reviews the techniques that help managers arrive at their decisions students are guided through the various perspectives processes and techniques relevant to management decision making thus enabling them to evaluate and choose the preferred option from a set of behavioural and technical decision making tools

the insights offered in this book are intended to guarantee the reader a more successful career it is written especially for managers and executives whose jobs require managing people successfully but it is also written for anyone who must

make decisions that involve other people the authors discuss the decision styles and habits that people form and how to change decision making habits where necessary the models and techniques for decision making presented here have been used throughout the world in all kinds of businesses and government agencies decision style concepts can benefit anyone from a new management trainee or mba student to the ceo of a large firm

this book provides a blend of quantitative and qualitative approaches to decision making while also bridging the gap between the theory of how to make good decisions versus how people actually make decisions the authors present the tools and techniques of decision analysis to learn how to become a focussed decision maker identify and properly frame the decision or problem at hand specify the goals objectives and values that you are trying to achieve develop creative meaningful choices from among which you can choose evaluate the consequences of selecting each alternative using your goals objectives and values think about the key uncertainties that could impact the decision understand the swaps and trade offs that you are willing to make develop an approach for implementing your solution elicit the data you ll need from a variety of sources and disseminate and communicate your decisions to others the authors define a decision as the choice among alternatives based on how we value and trade off their pros and cons made in the face of uncertainty about what will actually happen the decision making process is presented as having three pillars to support the decision maker preferences what we prefer what meets our goals and objectives and the recognition that preferences are personal to the one making the decision alternatives the choices options or courses of action that we have and over which we have some degree of control and information what we know about the situation what we don t know how we connect choices to outcomes and how we deal with uncertainty key components of good decision making include how to define your goals and objectives how to incorporate uncertainties that we all face and how to develop better alternatives all of which are discussed sophisticated techniques are presented in a way that is accessible to the average decision maker probability theory is utilized to improve decisions and uncertainties are captured in decision trees risk avoidance risk transfer and risk mitigation are also discussed readers will gain a clear understanding of how to articulate the goals and objectives that should be the focal point of any decision

this text written by a philosopher and a social psychologist emphasizes concrete applications of decision research to problems of everyday living as well as to business social and political issues the text contains scores of interesting examples

and problems for analysis ranging from personal decisions about medical treatment to truman s decision to use the atomic bomb there is no other text with such a wide ranging coverage with so practical an orientation with such clear descriptions of the steps to effective decision making and with so many end of chapter problems for analysis and practice

making decisions just got easier you make decisions all the time in everyday life what to eat what clothes to wear with whom you spend your leisure time and how you spend your money in your business life you are also constantly making decisions the different activities you and your business colleagues need to carry out in order to arrive at a sound decision at work you are deciding how to spend your time which emails to answer what subjects to raise at a meeting when is the best time for your company to launch a new product what companies you should invest in what you are not willing to compromise on in negotiations what policies to develop and how best to market your products and services some of these decisions may have already been made for you by other colleagues usually those above you in your company or organization and your task is merely to implement them in other matters however you can exercise some control over the actual decision making process each of the seven chapters in decision making in a week covers a different aspect of the decision making process sunday know your aims clearly what are you actually making a decision about monday collect relevant information consider all the relevant factors as you gather the information you need tuesday identify different options widen your thinking challenge assumptions and consider creative solutions wednesday work effectively as a team make decisions as a group so that colleagues will feel motivated to implement the decision thursday evaluate different options set objective criteria against which you can examine the various options you have identified friday make an informed decision and implement it communicating it well to all the relevant parties saturday review the decision carefully evaluating the whole decision making process noting what went well and learning from mistakes

this book helps break down and analyze the process of solid decision making from the examination of decisions that went poorly to a concrete set of steps to consider when making new decisions the process in this book helps decision makers feel confident in their decisions and be able to communicate their process clearly using the process of moral imagination to make decision includes gathering all perspectives imagining creative solutions and choosing empathetically while looking at real world predominantly education based examples readers are encouraged to see where decisions fell apart and learn how to plan around blind spots this process includes solutions for common decision making mistakes and ways to reflect

and improve on what is to come

the essential resource designed to help you excel in the therapeutic decision making tdm examination this book offers 40 carefully curated practice cases designed to be similar to scenarios encountered in the actual tdm exam each case is thoughtfully crafted to assess critical thinking and decision making skills across the dimensions of care use this book to sharpen your knowledge enhance your clinical reasoning abilities and gain confidence in your therapeutic decision making here is a preview of what you ll learn what is keeping us from making good decisions where must our decisions come from points to consider when making a decision analyze the situation tell someone determine risk vs reward ratio make the decision effective decision making in the decision principles conquering decision making obstacles in life and business you can discover the principles and skills to make optimal decisions making decisions can be one of the most challenging aspects of life and business but it doesn t have to be with the right principles and framework to apply them anyone can become an effective decision maker in this book rich bello distills the complex subject matter of decision making into an easy to understand practical process that can apply to any decision

a bible to read for all transformation agents and leaders jérôme lavancier program director agile scale transformation coordination at société générale rather than offering us yet another series of case studies or a list of best practices that have been covered to death olivier zara offers us a real model for achieving decision making excellence and thus managing decision making risks in complex situations arnaud brouxel ex safran thales risk management expert an indispensable book to understand this complex subject from all perspectives and discover the benefits of new managerial approaches olivier bernard deputy director of flight safety at air france this book is a treasure trove of explanations on the causes of failure in business transformation projects and programs the decision making excellence manifesto should not be included as an appendix to this book but on the syllabus of all management schools charles escoula project manager at avem group this book proposes a coherent and robust model for managing complexity and crises but it also invites us to value our human ethical and altruistic qualities are you ready to take a journey into the 21st century enterprise paul louis moreau change digital transformation manager at bnp paribas loss of time meaning trust and agility disengagement ready for a dream olution do you make brilliant decisions very quickly but the execution of your decisions turns into a nightmare loss of time trust and agility do you watch the wheel of your transformation turn over and over feeling as if nothing ever

changes then it's time to start your dream solution by implementing decision making excellence this will require abandoning the paradigm of the heroic and omniscient chief who thinks and the employees who execute thus you will be able to develop the agility of your decision making processes successfully implemented for more than ten years in large companies decision making excellence is a powerful approach to managing decision making risks in a complex and uncertain environment numerous stakeholders and expertise to be synergized in shorter and shorter timeframes decision making excellence is at the service of operational excellence it avoids execution problems by integrating everyone's expertise in the co construction of a decision that is both flexible and robust this creates a sustainable collective engagement because the team runs very fast in the right direction

today's world is complex and getting more so each day huge multinational corporations international crisis and fast breaking events require most people to make decisions on a daily basis without the tools to understand the long term impact that today's decision might create because most people have never really been trained in how to make important complex decisions most people rely on experience and gut reaction which is okay for many decisions but not okay for decision that will have meaningful impact on organizations and individual decision makers need to develop the art and science of strategic decision making here professor thomas martin explains the need for decision makers to modify their thinking about how they deal with acquiring and analyzing information in each of the decision making process steps this approach requiring thinking modification will lengthen the process make it more complex and to some more arduous but the comprehensiveness of the new thinking approach should lead to improved and more effective decision making in this book dr martin presents a thinking modification framework that asserts that in the decision making process there are three situational states a current state future state and a transitional state that one must deliberate in finding a solution for each of these situational states martin develops an identical five step process to determine the best decision to make the steps of this process include change needing situational analysis challenge framing causal analysis generating solution ideas choosing a solution set implementation and aftermath planning this book will appeal to decision makers leaders and students of management who want a specific framework that details the process behind making strategic well informed decisions

a proven decision making system guides readers to the right choice every time make up your mind provides author hal

mooz's proprietary system for decision making this approach consists of three decision making models including the decision type model which characterizes what is at stake with any decision the decision solution model which frames the most suitable alternatives and the decision judgment model which provides ten bases for judging alternatives some of which may be defensible and others that although popular may not be defensible to challenge these models guide the reader's thinking to the most promising alternatives and the best choice a decision fit person enjoys the benefit of thinking clearly about decisions and their outcomes and is competent to act knowledgeably and decisively about creating the alternatives and judging them appropriately become decision fit think clearly and act decisively on your own decisions and help others to do the same
