tells the story of how America's biggest companies began, operated and prospered post World War I. This book takes the vantage point of people working within companies as they responded to constant change created by consumers and technology. It focuses on the entrepreneur, the firm and the industry by showing from the inside how businesses operated after 1920 while offering a good deal of modern American social and cultural history. The case studies and contextual chapters provide an in-depth understanding of the evolution of American management over nearly 100 years. American Business Since 1920: How It Worked presents historical struggles with decision making and the trend towards relative decentralization through stories of extraordinarily capable entrepreneurs and the organizations they led. It covers Henry Ford and his competitor Alfred Sloan at General Motors during the 1920s; Neil McElroy at Procter & Gamble in the 1930s; Ferdinand Eberstadt at the government's Controlled Materials Plan during World War II; David Sarnoff at RCA in the 1950s and 1960s; and Ray Kroc and his McDonald's franchises in the late twentieth century and early twenty-first century. It also delves into such modern success stories as Amazon, Com, eBay and Google. Provides deep analysis of some of the most successful companies of the 20th century. Contains topical chapters covering titans of the 2000s part of Wiley Blackwell's highly praised American History series. American Business Since 1920: How It Worked is designed for use in both basic and advanced courses in American history at the undergraduate and graduate levels.

fully updated CANFOR is the recommended tool for assessing the needs of people with mental health problems in forensic settings

Offering rhetorically informed strategic interventions, this innovative collection moves beyond critiques of mental health issues, problems and care with sections that focus on methodological, cultural and legal and pedagogical interventions. Readers will find an engaging discussion of a discrete mental health phenomenon as well as a clear interventional takeaway. In each chapter, contributors make use of critical discourse analyses, ethnographic inquiries, autoethnographic inquiries, case studies and textual analyses to engage such mental health research topics as postpartum depression among Chinese mothers, insanity pleas, anosognosia, issues of intimacy, access and embodiment in research projects, community support groups, black mental health, women in alcoholics anonymous and mental health in faculty workshops and university online health tools. The authors and editors create scholarship on mental health that explicitly builds productive methodological, theoretical and practical bridges among scholars and teachers in the various

specialties of writing and communication this collection will interest scholars students and practitioners in health and medical humanities rhetoric of health and medicine health communication medical anthropology scientific and technical communication disability studies and rhetorical studies generally
