this book presents the first comprehensive introduction to methods and methodologies in the humanities and social sciences in general and islamic studies in particular from a critical rationalist point of view the book aims to be a self sufficient theoretical and practical guide to the topics that it introduces it contains a large selection of fully worked out review activities and review questions plus topics for further discussion which are devised to assist readers to better understand the issues which are discussed in the book last but not least all efforts have been made to make sure that most if not all of the reading materials which are recommended in the book are not only of the highest quality but also freely available on the internet

offers a collaborative exploration of the role of historical understanding in leading disciplines across the humanities and social sciences

what is the relationship between the social sciences and the natural sciences where do today s dominant approaches to doing social science come from what are the main fissures and debates in contemporary social scientific thought how are we to make sense of seemingly contrasting approaches to how social scientists find out about the world and justify their claims to have knowledge of it in this exciting handbook ian jarvie and jesús zamora bonilla have put together a wide ranging and authoritative overview of the main philosophical currents and traditions at work in the social sciences today starting with the history of social scientific thought this handbook sets out to explore that core fundamentals of social science practice from issues of ontology and epistemology to issues of practical method along the way it investigates such notions as paradigm empiricism postmodernism naturalism language

agency power culture and causality bringing together in one volume leading authorities in the field from around the world this book will be a must have for any serious scholar or student of the social sciences

library and information studies for arctic social sciences and humanities serves as a key interdisciplinary title that links the social sciences and humanities with current issues trends and projects in library archival and information sciences within shared arctic frameworks and geographies including contributions from professionals and academics working across and on the arctic the book presents recent research theoretical inquiry and applied professional endeavours at academic and public libraries as well as archives museums government institutions and other organisations focusing on efforts that further arctic knowledge and research papers present local regional and institutional case studies to conceptually and empirically describe real life research in which the authors are engaged topics covered include the complexities of developing and managing multilingual resources working in geographically isolated areas curating combinations of local regional national and international content collections and understanding historical and contemporary colonial industrial influences in indigenous knowledge library and information studies for arctic social sciences and humanities will be essential reading for academics researchers and students working the fields of library archival and information or data science as well as those working in the humanities and social sciences more generally it should also be of great interest to librarians archivists curators and information or data professionals around the globe
