malvina hoffman s races of mankind and the materiality of race in early twentieth century sculpture and photography is a monographic study of a racial exhibit created in the 1930s for the chicago field museum of natural history the exhibit the races of mankind was comprised of 104 figurative sculptures made by a single sculptor malvina hoffman the dissertation focuses on hoffman s attempts to reconcile the demands of anthropology and racial science with the constraints of her artistic training and medium sculpture the dissertation argues was both the most ideal and most tendentious vehicle for the field museum s representation of race hoffman s training as a sculptor and her sensibility to form and embodiment offered a distinct and compelling mode with which to encode and embed race in real bodies yet hoffman s sculptures co existed with

photographs plaster casts and mannequins in the museum and had to differentiate themselves from these other objects while incorporating their tactile and visual effects into the representation of race the dissertation studies the problem of sculpture in the natural history museum from a diverse range of media disciplines and histories with special reliance on recent theoretical and methodological advances in museum studies histories of anthropology and postcolonial and critical race studies in order to produce an expanded account of sculpture and american art
