first published in 1985 examinations presents a balanced overview and commentary
on all the main aspects of public examinations the key themes are examinations
and their context historical political social and educational functions of examination
how they work equity and fairness of the process and future of public examinations
recurring issues in the book are the tension between the need for common national
standards and the need for diverse individuality and the conflict between
competitive functions of examinations as instruments of selection and their

descriptive function as reports on standards of performance the author argues that the main aspects of examinations are not given a prominent place in the training of teachers though public examinations have widespread impact on society this book will be an essential read for scholars and researchers of education higher education and also for administrators and policy makers

first published in 1905 this volume on the cotton industry emerged in the context of joseph chamberlain s proposed tariff reform and provided an academic perspective on the industry the author s j chapman was an established historian of lancashire cotton and produced this volume as an elementary introduction to the economics of the industry and some of its issues he discusses the raw material industrial and commercial history british trade and foreign tariffs exploring the historical influence of tariffs on the cotton trade and including two articles reprinted from the manchester guardian the newspaper was strongly affiliated with the liberal party who would win a landslide victory the following year based in part on their opposition to tariff reform

this volume discusses a short history of british colonial policy with all its faults the book represents much reading and some thought in writing what is to some extent a history of opinion it has been impossible altogether to suppress my own individual opinions i trust however that i have not seemed to attach importance to them in dealing with the later periods i remembered sir walter raleigh s remark on the fate which awaits the treatment of contemporary history but obscurity may claim its compensations and atleast i am not conscious of having written under the bias of personal or party prejudice
