proceedings of the 6th international symposium on ostracods
saalfelden
salzburg
july 30 august 8 1976

first published in 1996
volume 2 of the international dictionary of historical places
covers northern europe
british isles to russia
out of a set of five the

dictionary spans from aachen to ypres and includes an index by country this five volume set presents some 1 000 comprehensive and fully illustrated histories of the most famous sites in the world entries include location description and site details and a 3 000 to 4 000 word essay that provides a full history of the site and its condition today an annotated further reading list of books and articles about the site completes each entry

first published in 1995 medieval france an encyclopedia is the first single volume reference work on the history and culture of medieval france it covers the political intellectual literary and musical history of the country from the early fifth to the late fifteenth century the shorter entries offer succinct summaries of the lives of individuals events works cities monuments and other important subjects followed by essential bibliographies longer essay length articles provide interpretive comments about significant institutions and important periods or events the encyclopedia is thoroughly cross referenced and includes a generous selection of illustrations maps charts and genealogies it is especially strong in its coverage of economic issues women music religion and literature this comprehensive work of over 2 400 entries will be of key interest to students and scholars as well as general readers

lithic materials and paleolithic societies provides a detailed examination of the paleolithic procurement and utilization of the most durable material in the worldwide archaeological record the volume addresses sites ranging in age from some of the earliest hominin occupations in eastern and southern africa to late pleistocene and post pleistocene occupations in north american and australia the early paleolithic in india and the near east the middle paleolithic in europe and the late paleolithic in europe and eastern asia are also considered the authors include established researchers who provide important synthetic statements updated with new information recent data are reported often by younger scholars who are becoming respected members of the international research community the authors represent research traditions from nine countries and therefore provide insight into the scholarly present as well as the paleolithic past attempts are frequently made to relate lithic procurement and utilization to the organization of societies and even broader concerns of hominin behaviour the volume re evaluates existing interpretations in some instances by updating previous work of the authors and offers provocative new interpretations that at times call into question some basic assumptions of the paleolithic this book will be invaluable reading for advanced students and researchers in the fields of palaeolithic archaeology geoarchaeology and anthropology

this work has two aims to represent and exhibit the better literature of history in the english language and to give it an organized body a system

adapted to the greatest convenience in any use whether for reference or for reading for teacher student or casual inquirer v 1 preface
