for much of the postwar era french society had a contradictory view of passenger trains scorning them as quaint anachronisms on the one hand yet also fearing their economic and social impact all this changed with the introduction of the famed train á grande vitesse tgv between paris and lyon in the early 1980s in vivid detail meunier describes the political economic and social factors that both helped and hindered the development of the world s fastest most technologically advanced train the present day enthusiasm in france for high speed rail travel dates only to the successful launch of the now famous tgv in 1981 until now most published accounts of french high speed rail have been of a technical nature and have ignored or minimized the historical political economic and social context historians have been

left with detailed descriptions of locomotives and experimental test runs but there has been scant information concerning why the machines were built and why the tests were carried out in the first place this book is the first full length treatment of high speed rail travel and the bibliography is one of the most complete on the subject
