commercial law judgments south africa

information technology has permeated all walks of life in the past two decades accounting is no exception be it financial accounting management accounting or audit information technology and systems have simplified daily tasks and routine work simplified reporting and changed how accounting is done the routledge companion to accounting information systems provides a prestige reference work which offers students and researchers an introduction to current and emerging scholarship in the discipline contributions from an international cast of authors provides a balanced view of both the technical underpinnings and organisational consequences of accounting information systems with a focus on the business consequences of technology this unique reference book will be a vital resource for students and researchers involved in accounting and information management

the book describes the different tools and techniques available to anyone who is engaged in providing funding or advice to a project project finance is ultimately about applying three basic principles to a funding situation and from these three all the other ideas flow including contracts first there needs to be a cash flow coming from the project that is capable of being captured by finance providers second there needs to be a group of assets that can be segregated and contained by making sure they cannot be taken away by other parties and thirdly there needs to be a risk envelope that is well understood and managed dynamically during the project s life to do this a network of contracts must exist to support the rights of the different stakeholders and their legal claims on the project in this book the authors examine all of these aspects and provide some examples mini cases of project structures and approaches the book begins and ends with a longer case study of two projects that were standalone examples of project financing and controversial for different reasons at the time of their fundraising
