they bring three charges against us atheism thyestean banquets and oedipean unions so a late second century christian apologist wrote with reference to his critics against these and other charges the apologists rallied not so they maintained it was not the christians but their critics who were the atheists and the christians were the true theists they were atheists only insofar as they denied the fabricated gods of the cults and the immoral deities of theaters that they explained was why christians absented themselves whatever the cost from the imperial cult theaters and amphitheaters they were not cannibals as thyestes was when he ate the flesh of his children to suggest otherwise was to misunderstand christians consuming christ s flesh and blood at the eucharist nor were they imitators of oedipus who entered into sexual relations with jocasta his queen and though he knew it not also his mother christians did exchange the kiss of peace they did love one another they were not however incestuous any promiscuous love on their part extended only to a very practical love of every needy soul this book explores these arguments especially noting the apologists commitment to god s oneness to christians not worshipping anything made and to humans properly caring for fellow creatures

making the case for the christian faith apologetics has always been part of the church s mission yet christians sometimes have had different approaches to defending the faith responding to the needs of their respective times and framing their arguments to address the particular issues of their day cardinal avery dulles s a history of apologetics provides a masterful overview of christian apologetics from its beginning in the new testament through the middle ages and on to the present resurgence of apologetics among catholics and protestants dulles shows how christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of christian belief written by one of catholicism s leading american theologians a history of apologetics also examines apologetics in the 20th and early 21st centuries including its decline among catholics following vatican ii and its recent revival as well as the contributions of contemporary evangelical protestant apologists dulles also considers the growing catholic protestant convergence in apologetics no student of apologetics and contemporary theology should be without this superb and masterful work

as christianity spread throughout the ancient world thereby garnering increasing attention scrutiny and political philosophical and religious opposition it became necessary for christians to undertake two important tasks first answering social religious and philosophical objections to christianity and second appealing to governmental authorities to cease their baseless attacks on the church the works of these defenders of the christian faith the apologists as they are known therefore represent the first christian writings addressed to those outside the church and evidence their authors sincere fearless and uncompromising love for god and his church deep familiarity with and experience of the life of prayer and the church s liturgical experience and superb intellectual and philosophical capabilities indeed in the representative selection of the writings of the apologists provided in this book the reader will encounter an inspiring group of pious christian believers who despite holding no known formal rank in the church utilized their god given talents the education and training they had undergone and their own resources to defend the faith of christ and the legal rights of the christians actively and thoroughly refute the belief systems of and anti christian allegations and rumors asserted by the opponents of the church and in so doing exert every effort to evangelize their readers to the end of leading them to recognize the superiority and incomparable truth and beauty of the christian life for the sake of their salvation
