while the rate of urbanisation in the developing world has increased dramatically over the past 20 years governments capacity to support urban growth has in many cases failed to keep up with this trend non governmental organisations working in the field have long advocated community management of the urban environment as the best solution to this problem and there is now a growing consensus that the answer does indeed lie with local communities yet there is still little understanding of what constitutes

meaningful and effective community participation or how it may be achieved in such a complex operating environment sharing the city gives a comprehensive account of urban community participation both in theory and practice it first presents a wide ranging analysis of the issues and develops a participatory framework for urban management using case studies and existing examples from around the world and drawing on lessons learned from previous experience it then develops the theory into a practical working model effective participatory urban management calls for a fundamental rethink on the part of all the actors involved from local authorities and development agencies through local and international ngos to the community based organisations and the communities themselves in redefining their roles and relationships sharing the city presents a new and radically different yet viable and effective approach to the concept of urban management

this book is an in depth tutorial on how to make communities work to really improve business performance it covers principles and proven practices that ensure community success and longevity provides tips and techniques for leading communities and communities programs that the reader can apply immediately looks at different types of communities and the technologies that support them and illustrates communities in practice

this book reviews the performance and effectiveness of the community development quotas cdq programs that were formed as a result of the sustainable fisheries act of 1996 the cdq program is a method of allocating access to fisheries to eligible communities with the intent of promoting local social and economic conditions through participation in fishing related activities the book looks at those alaskan fisheries that have experience with cdqs such as halibut pollock sablefish and crab and comments on the extent to which the programs have met their objectivesâ helping communities develop ongoing commercial fishing and processing activities creating employment opportunities and providing capital for investment in fishing processing and support projects such as infrastructure it also considers how cdq type programs might apply in the western pacific
