provocative and reflective this volume on the notion of knowledge and innovation in the business industry provides readers with a holistic approach to the subject of knowledge structuring their arguments around four case studies of innovation within four entirely different contexts håkansson and waluszewski invite the business minded reader to consider the costs of adopting new knowledge and innovation within a business setting this book questions the long held assumption that new knowledge and innovation are universally advantageous follows the tremor of an innovation as new knowledge reverberates through or is dampened by the larger economic community including cultural structures the industrial standards and the foundational assumptions that rule a particular economic domain focuses in particular on the interfaces where the innovative agent connects to its customers suppliers and competitors an ideal reference source for postgraduate students taking advanced courses in science and technology studies innovation management industrial marketing and purchasing technological development and innovation systems

the tropics is an area of enormous opportunity and potential the countries situated between the tropics of cancer and capricorn are largely developing in nature there is huge interest in the types of business investments made in southeast asia central africa and the amazonian tropical belts these tropical regions continue to face opportunities and challenges in attracting foreign direct investments as well as the need to complement and or compete with larger economies external to the tropics this book provides an empirical assessment of the key sociocultural economic environmental and political factors that influence the business dynamics of organizations operating within the tropics it will address but is not limited to topics such as attracting businesses to the tropics facilitating smooth stable conditions for business operations and sustainability national institutions and regulations that shape the way business is done and the increasing deployment of new technologies and entrepreneurial innovations which are defining the global tropics as a distinct business region it will offer readers a key focus for developing a deeper understanding of the factors and frameworks that influence and shape business activity in the area while the primary audience for the book consists of academics and students from the fields of economics environmental economics developmental economics business international trade tourism and area studies it will also provide a practical resource for government policy analysts wanting to fully appreciate some of the key economic and business issues facing the region

divided into two parts this highly readable book teaches the aspiring entrepreneur how to successfully start manage and run a small business industry in india part one discusses the qualities and characteristics of a successful entrepreneur training and skills development ownership patterns of business and industry management of human resources and common problems faced by entrepreneurs part two offers case studies of other small businesses industries in key countries like japan tawain italy and the uk and usa

changes in the dynamics of economic activities since the last decades of the 20th century have yielded major changes in the composition of industries and the division of labor and production across different regions of the world despite these shifts in the global economy some industries have remained competitive even without relocating their operations overseas industries and global competition examines how and why the specificities of certain industries and firms determined their choice of location and competitiveness this volume identifies the major drivers of this process and explains why some firms and industries moved to other parts of world while others did not relocation was not the sole determinant of the success or failure of firms and industries indeed some were able to reinvent themselves at their original location and build new competitive advantages the path that each industry or firm took varied this book argues that the specific characteristics of each industry defined the conditions of competitiveness and provide a wide range of cases as illustrations aimed at scholars researchers and acadmeics in the fields of business history international business and related disciplines industries and global competition exmaines the unique questions how and why did the specificities of certain industries and firms determine their choice of location and competitiveness chapter 11 of this book is freely available as a downloadable open access pdf at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license
