although there is broad agreement on the importance of rehabilitation and the need to improve
occupational health and vocational rehabilitation in the uk there is considerable uncertainty
about what rehabilitation is and about its cost effectiveness particularly for the common health
problems that cause most long term disability and incapacity this paper seeks to develop a
theoretical and conceptual basis for the rehabilitation of common health problems chapters include
traditional rehabilitation and the need for a different approach illness disability and incapacity
for work the biopsychosocial model and framework of disability obstacles to recovery and return to
work clinical and occupational management of common health problems personal responsibility and
motivation and rehabilitation in a social security context

handy companion to common topics in rehabilitation medicine including stroke spinal cord injury
traumatic brain injury lower limb amputation spasticity cardiopulmonary and geriatrics
rehabilitation in this second edition apart from updates on topics covered in the first edition we
ve added 2 new chapters on return to work and driving after disability and sex and sexuality in
the disabled approach is problem based and clinically oriented useful guide for rehabilitation
healthcare professionals including doctors medical students nurses and therapists

list of members in v 4

describes a planning process for use by managers that can lead to better basic and referral

services for the many people suffering from disabilities in developing countries the guide is intended for managers of services where the community based rehabilitation approach has been adopted highly practical and supported by abundant checklists examples and model timetables and forms the manual can be used in training courses or for self study by managers interested in improving their planning skills the manual has five chapters the first provides definitions of terms and concepts useful in understanding disability and rehabilitation explains how a community based rehabilitation program operates in conjunction with referral services and gives a brief description of the management cycle the next two chapters provide training modules chapter two on assessing the current situation presents three modules describing components of a situation analysis followed by a suggested method for setting priorities based on the analysis information ranges from possible sources of data on numbers and types of disabilities through a list of common disabilities and their preventable and non preventable causes to examples of factors to be considered when setting priorities the six modules in chapter three begin with advice on setting objectives and targets the remaining modules cover five other components of the planning process selecting strategies listing activities identifying sources estimating costs and reviewing the plan chapter four describes six activities involved in implementing a program the manual concludes with a chapter outlining the components of program evaluation and the information that should be gathered and analyzed

this volume addresses the promise and challenges of employment service roles and contexts in rehabilitation and mental health practice developing readiness for employment sustaining employment and responding to the needs of people coping with a range of disabilities the book is relevant to the education of human service professionals and will enable practitioners to expand their awareness understanding and knowledge of the interface of rehabilitation and mental health

a union list of serials commencing publication after dec 31 1949
