statism denotes any system of big government a government that gains power at the expense of individual freedom a government that uses its power to redistribute wealth and regulate the economy laissez faire capitalism by contrast is the system of limited government the system of economic and political freedom it is a system that has created more wealth and lifted more people out of poverty than any other system yet it is relentlessly demonized we are told that the free market is impractical prone to crises depressions and coercive monopolies michael dahlen dispels these and many other myths he shows that a laissez faire capitalist system is not only practical he shows that it is moral as it is the only system that recognizes each individual's inalienable right to his own life a provocative weave of history philosophy and political economy ending big government the essential case for capitalism and freedom shows that capitalism is incontestably superior to statism

despite creating vast inequalities and propping up reactionary world regimes capitalism has many passionate defenders but not because of what it withholds from some and gives to others capitalism dominates todd mcgowan argues because it mimics the structure of our desire while hiding the trauma that the system inflicts upon it people from all backgrounds enjoy what capitalism provides but at the same time are told more and better is yet to come capitalism traps us through an incomplete satisfaction that compels us after the new the better and the more capitalism's parasitic relationship to our desires gives it the illusion of corresponding to our natural impulses which is how capitalism's defenders characterize it by understanding this psychic strategy mcgowan hopes to divest us of our addiction to capitalist enrichment and help us rediscover enjoyment as we actually experienced it by locating it in the present mcgowan frees us from our attachment to a better future and the belief that capitalism is an essential outgrowth of human nature from this perspective our economic social and political worlds open up to real political change eloquent and enlivened by examples from film
