1. What is the purpose of adjusting entries? Answer: Adjusting entries are made at the end of an accounting period to update the ledger accounts before preparing financial statements. They ensure that revenues are recognized in the period they are earned and expenses are matched to those revenues, adhering to the accrual basis of accounting.

2. How do you record accrued revenues? Answer: To record accrued revenues, you debit an asset account (such as Accounts Receivable) and credit a revenue account. For example: - Debit: Accounts Receivable - Credit: Revenue This entry recognizes revenue earned but not yet received in cash.

3. What is a prepaid expense, and how is it adjusted? Answer: A prepaid expense is a payment made in advance for goods or services to be received in the future (e.g., insurance, rent). To adjust, you: - Debit the expense account (e.g., Insurance Expense) - Credit the asset account (e.g., Prepaid Insurance) This reflects the portion of the prepaid expense that has been used up during the period.

4. Describe the process of preparing a closing entry. Answer: Closing entries are made to transfer the balances of temporary accounts (revenues, expenses, dividends) to Retained Earnings. The process involves:

1. Debiting revenue accounts and crediting Income Summary.
2. Crediting expense accounts and debiting Income Summary.
3. Closing Income Summary to Retained Earnings by debiting Income Summary and crediting Retained Earnings.
4. Closing dividends to Retained Earnings by debiting Retained Earnings and crediting Dividends.

5. Why are adjusting entries necessary for unearned revenues? Answer: Adjusting entries for unearned revenues recognize the revenue that has been earned but was previously recorded as a liability. This ensures that the financial statements accurately reflect earned revenue in the correct period, following the revenue recognition principle. --- Common Mistakes to Avoid in Chapter 10 Accounting Tests

- Forgetting to make adjusting entries: Many students omit necessary adjustments, leading to incorrect financial statements.
- Misclassifying accounts:
