st thomas aquinas 1225 1274 saw religion as part of the natural human propensity to worship his ability to recognize the naturalness of this phenomenon and simultaneously to go beyond it to explore spiritual revelation makes his work fresh and highly readable today while drawing on a strong distinction between theology and philosophy aquinas interleaved them intricately in his writings which range from an examination of the structures of thought to the concept of god as the end of all things this accessible new translation chooses substantial passages not only from the

indispensable summa theologiae but from many other works fully illustrating the breadth and progression of aquinas s philosophy about the series for over 100 years oxford world s classics has made available the widest range of literature from around the globe each affordable volume reflects oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

the idea that some parts of reality are fundamental and others derivative was an important one in aristotle s philosophical system and is now again of great current interest in philosophy michail peramatzis presents a new account of priority relations in aristotle s metaphysics and draws out their continuing philosophical significance

widely recognized as one of the dominant figures in western intellectual tradition thomas aquinas has influenced a variety of fields of thought for centuries this new anthology of his writings translated from the original latin by hood contains selections from a broad range of his topics and ideas it includes works of systemic theology commentaries on the bible aristotle and other texts of the classical tradition divided into eight chapters the book offers substantial selections from each of aquinas areas of interest metaphysics natural science human nature law and ethics catholic theology the study of the bible art and beauty and the social world in vivid translations and enlightening introductions to the selections hood provides readers with a rich overview of the important work of this unique thinker without violating the integrity of the original texts hood provides his own translations of aquinas s work and introduces readers to his work in all its diversity selections present aquinas views on a variety of topics of profound contemporary as well as medieval significance including politics economic exchange war theory sexual morality and the role and status of women and religious minorities thus without neglecting subjects such as metaphysics epistemology and natural law which are the focus of other anthologies hood offers a broader portrait of aquinas his thoughts and the diversity and richness of the culture that gave rise to both
