china s security state describes the creation evolution and development of chinese
security and intelligence agencies as well as their role in influencing chinese
communist party politics throughout the party s history xuezhi guo investigates
patterns of leadership politics from the vantage point of security and intelligence
organization and operation by providing new evidence and offering alternative
interpretations of major events throughout chinese communist party history this
analysis promotes a better understanding of the ccp s mechanisms for control over
both party members and the general population this study specifies some of the
broader implications for theory and research that can help clarify the nature of
chinese politics and potential future developments in the country s security and
intelligence services

this textbook surveys new and emergent methods for doing research in critical
security studies filling a gap in the literature the second edition has been revised and
updated this textbook is a practical guide to research design in this increasingly
established field arguing for serious attention to questions of research design and
method the book develops accessible scholarly overviews of key methods used
across critical security studies such as ethnography discourse analysis materiality
and corporeal methods it draws on prominent examples of each method s objects of
analysis relevant data and forms of data collection the book s defining feature is the
collection of diverse accounts of research design from scholars working within each
method each of which is a clear and honest recounting of a specific project s design
and development this second edition is extensively revised and expanded its 33
contributors reflect the sheer diversity of critical security studies today representing
various career stages scholarly interests and identities this book is systematic in its
approach to research design but keeps a reflexive and pluralist approach to the
question of methods and how they can be used the second edition has a new
forward looking conclusion examining future research trends and challenges for the
field this book will be essential reading for upper level students and researchers in
the field of critical security studies and of much interest to students in international
relations and across the social sciences

located in the center of asia with one of the largest land frontiers in the world and 14

neighbors whose dispositions could not easily be predicted china has long been obsessed with security in this handbook an internationally renowned team of contributors provide a comprehensive and systematic analysis of contemporary thinking about chinese national security chapters cover the prc s historical ideological and doctrinal heritage related to security its security arrangements and policies targeting key regions and nations of the world the security aspects of the prc s ground air sea space and cyber forces as well as the changing and expanding definition and scope of china s security theory and practice

in the pre modern and modern eras a government could easily subdue its enemy win wars and police its border unilaterally through hard military might this is not the same in the current age of globalization globalization complicates national security hence the power model suitable for national security in the age of globalization should address the enormous security challenges of globalization this book argues that only smart power and diplomacy can address the security challenges of the globalized world

the pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with

the rapid growth of the private security industry this volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society

put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns in this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the cold war and globalization as well as the multifarious impacts of global environmental change in the early 21st century
