this fourth edition has been wholly rewritten and restructured while retaining its wealth of information about the founding figures of sociology it also includes much new material on contemporary social theory and particularly the challenge to sociology posed by the rise of post structuralism with its questioning of the whole enlightenment project new features include a concise introduction to the major debates of the twentieth century information on thinkers of the nineteenth and early twentieth century whose relevance to modern social thought is only now being recognised e g nietzsche saussure simmel key debates placed in historical and philosophical context connections drawn between post structuralist thinkers like foucault and derrida and the founding figures of sociology marx weber and durkheim easy to read format four wholly new chapters tracing developments in social theory from structuralism to postmodernism

from its first edition in 1979 perspectives in sociology has provided generations of undergraduates with a clear reassuring introduction to the complications of sociological theory this revised and updated edition features a completely rewritten general introduction and conclusion all new introductions to each part clarifying how each one builds on what came before an updated set of formative questions at the end of each chapter a comprehensive glossary of key terms while retaining its emphasis and wealth of information on the founding figures of sociology this sixth edition includes new tools that will allow students from related disciplines to access relevant sociological material quickly

original scholarly monograph

in an era when rapid social change the disappearance of traditional communities the rise of political populism and the threat posed by radical religious movements makes it appear that all that is solid melts into air the classical sociological problem of how

peaceable societies can be created and maintained assumes renewed urgency uncovering social life critical perspectives from sociology explores how contemporary institutional changes erode existing social relationships and identities but also create space for opposition to or creative adaptation of these broader shifts exploring the threats and opportunities associated with the contemporary age this book identifies how sociology helps us understand the problems associated with social order and change before focusing on the most important institutional transformations to have occurred in bodies and health sex gender and sexuality employment finance the internet and new social media technology and artificial intelligence religion governance and terrorism after a critical introduction placing these issues in their historical and sociological context theoretical chapters analysing how sociology views the individual society relationship and the volatile processes endemic to the modern era provide an innovative and comprehensive context for these explorations this book provides a clear and engaging account of social life covering a broad range of sociological topics the diverse chapters are united in a concern with three major themes the growing complexity of the current era and the doubled identities with which it is associated the opportunities and constraints such developments pose to different groups and the capacity of institutional changes to both erode existing social relationships and create space for the emergence of new collective identities that oppose these structural shifts

first published in 2004 the subject of this text is modern accountancy which is to be considered from a sociological perspective the logical starting point is to map out the chosen subject modern accountancy before saying something about the particular disciplinary perspective sociology from which it is to be viewed the volume is split into two parts the sociology of accountancy and sociology for accounting

the term society is the most fundamental one in sociology it is used in very wide sense in common parlance the society is to refer to members of specific groups for example we speak of harijan society teacher s society and students society and the like similarly

the word is used to refer to some specific institution like brahma samaj arya samaj etc but in sociology the term society refers not to group of people but to the complex pattern of the norms of interaction that arise among them people are only the agents of social relationship they are regarded as things a society is intangible it is a process rather than a thing motion rather than structure society is a web of social relationships the pattern of norms of interaction by which the members of the society maintain themselves

building upon the success of previous editions this fully revised edition of sociology lays the foundations for understanding sociology in australia the depth and breadth of the book ensures its value not only for first year students but for sociology majors requiring on going reference to a range of theoretical perspectives and current debates this fifth australian edition continues to build on the book s reputation for coverage clarity and content drawing upon the work of leading australian sociologists as well as engaging with global social trends and sociological developments

questions about who we are who we can be and who is like and unlike us underpin a vast range of contemporary social issues what makes our families so important to us what do the often stark differences between how we self identify and the way others see and define us reveal about our social world why do we attach such significance to being ourselves in this new edition of her popular and inviting introduction steph lawler examines a range of important debates about identity taking a sociological perspective she shows how identity is produced and embedded in social relatio

social problems such as unemployment poverty and drug addiction are a fact of life in industrialised societies this book examines the sociology of social problems from interesting and challenging perspectives it analyses how social problems emerge and are defined as such who takes responsibility for them who is threatened by them and how they are managed solved or ignored the authors examine and critique existing theories of social problems before developing their own theoretical framework their theory of

residualist conversion of social problems explains how certain social problems threaten legitimate power structures so that problems of a social or political nature are transformed into personal problems and the helping professions are left to intervene this book will become a key reference on class inequality and social intervention and an important text for students in sociology and social work courses

comprehensive and engaging this textbook introduces students not only to foundational sociological work but also to insights from contemporary sociological theory and research this combined approach ensures that students become familiar with the core of sociology key concepts theories perspectives methods and findings students will acquire the ability to think like a sociologist investigate and understand complex social phenomena this text presents a complete sociological toolkit guiding students in the art of asking good sociological questions devising a sophisticated theory and developing methodologies to observe social phenomena the chapters of this book build cumulatively to equip students with the tools to quickly understand any new sociological topic or contemporary social problem the textbook also applies the sociological toolkit to selected key sociological issues showing how specific sociological topics can be easily investigated and understood using this approach taking a global and comparative perspective the book covers a rich diversity of sociological topics and social problems such as crime immigration race and ethnicity media education family organizations gender poverty modernization and religion the book presents a range of helpful pedagogical features throughout such as chapter overview and learning goals summaries at the start of every chapter thinking like a sociologist boxes encouraging students to reflect critically on learning points principle boxes summarizing key sociological principles theory schema boxes presenting sociological theories in a clear understandable manner stylized facts highlighting key empirical findings and patterns key concepts and summary sections at the end of every chapter and companion website providing additional material for every chapter for both instructors and students including powerpoint lecture notes discussion questions and answers multiple choice questions further reading and a full glossary of terms this clear and accessible text is essential reading for students taking

introductory courses in sociology it will also be useful for undergraduate and graduate courses in other social science disciplines such as psychology economics human geography demography communication studies education sciences political science and criminology

religions have always been associated with particular forms of knowledge often knowledge accorded special significance and sometimes knowledge at odds with prevailing understandings of truth and authority in wider society new religious movements emerge on the basis of reformulated often controversial understandings of how the world works and where ultimate meaning can be found governments have risen and fallen on the basis of such differences and global conflict has raged around competing claims about the origins and content of religious truth such concerns give rise to recurrent questions faced by academics governments and the general public how do we treat statements made by religious groups and on what basis are they made what authorities lie behind religious claims to truth how can competing claims about knowledge be resolved are there instances when it is appropriate to police religious knowledge claims or restrict their public expression this book addresses the relationship between religion and knowledge from a sociological perspective taking both religion and knowledge as phenomena located within ever changing social contexts it builds on historical foundations but offers a distinctive focus on the changing status of religious phenomena at the turn of the twenty first century including critical engagement with live debates about intelligent design and the new atheism this collection of essays brings recent research on religious movements into conversation with debates about socialisation reflexivity and the changing capacity of social institutions to shape human identities contributors examine religion as an institutional context for the production of knowledge as a form of knowledge to be transmitted or conveyed and as a social field in which controversies about knowledge emerge
