a composite philosophical work with a modern pretext and a very traditional questing spirit it concerns two north african brothers during the period of decolonization marcel

a successful pragmatic doctor and emile a writer obsessed with the riddle of himself and his existence emile has disappeared and marcel charged with organizing a drawerful of writings is forced into reluctant intimacy with his brother s mind the chronicles stories and confessions seemingly random at first slowly disclose an order as levels of a single truth which emile has attempted to reach and curiously as marcel s resistance is overcome he begins to recognize the same impulse in himself past and present their existential problem is symbolized by the scorpion in a game of torture when it can t escape a ring of fire it stings itself deliberately or accidentally in frenzy fatally or to be briefly stunned and of the game itself and its spectators what are their motives and what is revealed obviously it takes some nerve to venture into such areas as fully as memmi does risking bombast dullness and not least a frightening degree of self exposure and that risk is not only the acknowledged heart of his meaning but a measure of his success as impressive as the honest intelligence is the fact that such a range and depth of awareness have been martialed into unified and compelling fiction kirkus
