Insert a line graph showing the growth of global trade over time with annotations highlighting periods of disruption. Practical Application Businesses need to diversify their supply chains adapt to changing regulations and cultivate strong relationships with local stakeholders. Individuals need to understand the complexities of the evolving global landscape and adapt their strategies accordingly. 5 Geopolitical Realignment The global power balance is shifting with the rise of new economic and political powers challenging existing structures. This realignment creates both opportunities and risks. Impact Increased competition for resources and influence potential for conflicts and uncertainty in international relations. The role of international organizations and multilateral agreements is being questioned. The spread of misinformation and disinformation is exacerbating existing tensions.
