let us c has been part of learning and teaching material in
most engineering and science institutes round the country for years
now from last year or so i received several suggestions that its
size be pruned a bit as many learners who learn c language in their
engineering or science curriculum have some familiarity with it i am
happy to fulfill this request i hope the readers would appreciate the
lean look of the current edition in one of the previous edition i had
realigned the chapters in such a manner that if a c programming
course is taught using let us c it can be finished in 22 lectures of
one hour each with one chapter's contents devoted to one lecture i am
happy that many readers liked this idea and reported that this has
made their learning path trouble free a more rational reorganization
of end of chapter exercises in the book has also been well received
riding on that feedback i had introduced one more feature in the
fifteenth edition i can note these are hand crafted notes on c
programming from the reader's emails i gather that they have turned
out to be very useful to help revise their concepts on the day before
the examination viva voce or interview many readers also told me
that they have immensely benefitted from the inclusion of the chapter
on interview faqs i have improved this chapter further the rationale
behind this chapter is simple ultimately all the readers of let us c
sooner or later end up in an interview room where they are required
to take questions on c programming i now have a proof that this
chapter has helped to make that journey smooth and fruitful all the
programs present in the book and some more are available in source
code form at kicit.com/books/letusc sourcecode you are free to
download them improve them change them do whatever with them if you
wish to get solutions for the exercises in the book they are available
in another book titled let us c solutions if you want

somemore problems for practice they are available in the book titled let us cworkbook as usual new editions of these t
