in a book that is as certain to be as controversial as it is meticulously researched a former special assistant to the president for national security affairs and senior official of the central intelligence agency shows that the u s could be headed toward a nuclear face off with communist china within four years and it definitively reveals how china is steadily pursuing a stealthy systematic strategy to attain geopolitical and economic dominance first in asia and

eurasia then possibly globally within the next twenty using recently declassified documents statements by russian and chinese leaders largely overlooked in the western media and groundbreaking analysis and investigative work menges explains china s plan thoroughly exposing china s methods of economic control china s secret alliance with russia and other anti america nations including north korea china s growing military and nuclear power over 90 icbms many of them aimed at u s cities how china and russia have been responsible for weaponizing terrorists bent on harming the u s damage caused by china s trade tactics since 1990 we ve lost 8 million jobs thanks to china trade surpluses

examines the history of china from ancient times to the present

hands of god is a book series by dr arvind yadav chronicling the lives of renowned doctors and surgeons the series explores their journey what inspired them to pursue medicine their struggles to secure a medical seat postgraduate and specialized training and the challenges faced in practice it highlights their most remarkable and difficult cases showcasing their dedication to healing dr yadav believes every doctor has a unique story worth telling this series provides a deep insight into the medical profession helping readers understand the sacrifices perseverance and the profound doctorpatient relationship it also serves as an inspiration for aspiring doctors shedding light on the commitment required to excel in this noble field

the labour party housing and urban transformation explores how the urban transformation of britain between 1945 and 1970 was understood politically by the labour party placing the labour party at the centre of the discussion the book covers the most extensive period of state led urban change in british history from the end of the second world war to the decline of high modernism in the late 1960s taking a particular focus on housing to explore the implementation of modernist ideas to drive a far ranging process of urban transformation in britain it challenges conventional understandings of labour s urban legacy and puts political ideas at the heart of twentieth century change utilising a breadth and range of material including two distinct sets of archival sources published secondary material national legislation and housing acts and various case studies child moves seamlessly between the national picture and its local impacts it also draws from sources which had a crucial influence on political thinking throughout the mid twentieth century to understand how urban transformation represented for labour a political vision of the future a timely contribution both to urban history and to the history of post war britain it challenges existing interpretations of modernism connects urban change to the political ideas that drove it and allows us to comprehend the state of urban britain today

the aim of this book is to tell a fuller story of postmodernism as applied to philosophy and a few other related disciplines the book considers postmodernism from different angles apart

from examining the nexus between postmodernism and different branches of philosophy the ideas of leading postmodern thinkers we critically discussed in an age where students find it very difficult to buy relevant books this book is a handy reference material because it covers the very essential areas of postmodernism i must commend the editors of the book for their editorial astuteness and all the contributors for exhibiting a wonderful and overwhelming enlightenment for philosophy students and students of related disciplines i strongly recommend the book for these and enlightened readers who seek a deeper knowledge of the subject

east asia s rapidly changing role in international security the global economy development and global governance are expertly accounted for in this much needed state of the art text xiaoming huang offers an engaging and informed account of the key concepts issues and actors working in this area ranging from the region s history to culture and a comparative assessment of the region s states this text is informed throughout by a compelling theoretical framework in so doing it unpicks the often complex relationships both at the domestic level and externally only with this understanding is it possible to make sense of the region s complex relationships both internally and externally structured around key concepts in international relations of war and peace economic development and increased contemporary security threats this text offers an empirically rich engaging account of the changing fortunes of east asia

as one of the most significant figures in the history of western civilization the apostle paul has influenced and inspired countless individuals and institutions but for some he holds a controversial place in christianity this engaging book explores why many people have been wary of paul and what their criticisms reveal about the church and the broader culture patrick gray brings intellectual and cultural history into conversation with study of the new testament providing a balanced account and assessment of widespread antipathy to paul and exploring what the controversy tells us about ourselves

queer linguistics in its position as both a linguistic science of and for queer folk is inherently agitating to the disciplinary anxiety of a general linguistic science it represents as all queer science does a disruption of the normative modes of knowledge production and a displacement of academic authority this collection reconsiders the placement of the queer subject both as the researcher and as the researched within and beyond the discipline and provides an intellectual space for the interdisciplinary and sometimes anti disciplinary linguistic science of gender and sexuality in three sections it respectively considers the development of hyper speciated queer linguistic subfields the interdisciplinarity of intersectional approaches to queer language and the institution of queer linguistic science both within and beyond the academy taken together the essays in this collection confront the

scientific and institutional discipline of linguistics from a queer vantage point one which is perhaps inherently interdisciplinary in its formulation

this book covers the history of japan from the mid 19th century up to the present day it charts the spectacular rise of a society which leapt in little more than a generation from late feudal to early industrial forms of organisation an exceptionally disturbing experience for the japanese as they left behind the traditional and asian and moved towards the modern and western it examines the violent thirties and an empire won and lost between 1937 and 1945 and investigates the major changes after 1945 including the astonishing economic growth achieved since the 1950s
