this book successfully represents the indispensable interdisciplinarity of viewpoints by its authors combining legal perspectives with architectural and anthropological approaches with the observation and analysis presented here this book is the first to demonstrate research based governance solutions for cultural heritage within the process of recovering from traumatic events its opening statement is that universal international standards are not effective enough for the specific situations of disaster struck places a major objective of this monograph is to allow its readers to go through a learning experience from plural cases where reconstruction of cultural heritage became central to rebuilding a post disaster society this book introduces japan as the most disaster prone country with a long history of confronting and overcoming the power of nature resulting in its unique solutions for cultural heritage resilience and sustainability but how do leadership and decision making become efficient in times of recovery bearing in mind what may be lacking in japanese practices this work also presents comparable governance models from other countries which indicate alternative solutions while a traumatic event may occur within one night the process of recovery could last for decades such disasters also tend to recur in order that directly affected communities can sustain resilience throughout the long recovery period and that equally severe social trauma will not be repeated a continuous well maintained governance response is required whether grounded in local knowledge or national policy frameworks at the heart of this book is the matter of the reconstruction process involving networks of small and large communities each of those has a role that becomes operational through linkages of contacts the interchange of knowledge and skills and above all through the sharing of common goals

this book presents a systematic design methodology for decoding the interior structure of the antikythera

mechanism an astronomical device from ancient greece the historical background surviving evidence and reconstructions of the mechanism are introduced and the historical development of astronomical achievements and various astronomical instruments are investigated pursuing an approach based on the conceptual design of modern mechanisms and bearing in mind the standards of science and technology at the time all feasible designs of the six lost incomplete unclear subsystems are synthesized as illustrated examples and 48 feasible designs of the complete interior structure are presented this approach provides not only a logical tool for applying modern mechanical engineering knowledge to the reconstruction of the antikythera mechanism but also an innovative research direction for identifying the original structures of the mechanism in the future in short the book offers valuable new insights for all readers who are interested in the antikythera mechanism

this is the proceedings of the 6th international symposium on history of machines and mechanisms that was held in beijing china in september 2018 the symposium provided an international forum for presenting and discussing historical developments in the field of machine and mechanism science mms special sections focused on the following topics modern reviews of past works engineers in history and their works direct memories of the recent past the development of theories the history of the design of machines and mechanisms development of automation and robots the development of teaching of mms the schools and institutes of mechanical engineering the heritage of machines and mechanisms

the book has been written to serve as a textbook for students of m a sociology in various universities in the paper on rural sociology while the matter for the book has been gathered from standard books journals and newspapers data have been selected from government publication india and other such sources the matter has been presented in an analytical style using central side and running headings to make the subject easy to understand and remember the language used is easy and free from technical jargon in matters of discussion integral and holistic approach has been adopted to give a balanced view selected questions drawn from university papers have been given at the end of each chapter to enable the students to prepare for examination thus an attempt has been made to make this work an ideal textbook on the subject it is hoped that the book would also be of great help to trainees agriculturists and social workers
