the pimlico history significantly broadens the scope of western philosophy to reveal the influence of middle eastern and asian thought the vital contributions of jewish and islamic philosophers and the role of women within the tradition popkin also emphasizes schools and developments that have traditionally been overlooked sections on plato and aristotle are followed by a detailed presentation on hellenistic philosophy and its influence on the modern developments of materialism and scepticism another chapter considers renaissance philosophy and its seminal influence on modern

humanism and science turning to the modern era the contributors give equal attention to both sides of the current rift in philosophy between continental and analytic schools charting the development of each right to the end of the twentieth century each chapter includes an introductory essay and popkin provides notes that draw connections among the separate articles the rich bibliographic information and the indexes of names and terms make the volume a valuable resource combining a broad scope and penetrating analysis with a keen sense of what is relevant for the modern reader the book provides an accessible intro for students and general read

now in a special gift edition and featuring a brand new foreword by anthony gottlieb this is a dazzlingly unique exploration of the works of significant philosophers throughout the ages and a definitive must have title that deserves a revered place on every bookshelf

twenty six hundred years ago among the ionian greeks there arose the kind of reasoned inquiry after truth that characterizes philosophy in western civilization a path with many twists and turns and desolate stretches as well is traceable from this ancient beginning to the types of philosophy pursued in the west today the aim of the present volume is to acquaint the reader with landmarks along this path as far as the end of the middle ages until about 1350 when the renaissance began its work of shaping the modern era western philosophers of the ancient and medieval periods have had great influence not only upon later philosophers but also upon the general culture of the west politics religion the arts the sciences the very notions that pass for common sense all have been complexly affected directly and indirectly by the philosophical methods and findings of pythagoras socrates plato aristotle cicero plotinus st augustine st thomas aquinas ockham and others to be examined herein some knowledge of these thinkers is essential to any real understanding of the whys and wherefores of western cultural history moreover because most of the philosophical issues investigated in modern times first came up in ancient or medieval discussions a grasp of the latter is necessary to a just estimate of more recent discussions and to an avoidance of blind alleys and delayed insights in one's own philosophical reflections it is also true that the ideas and intellectual careers of ancient and medieval philosophers are matters of absorbing interest on their own account simply as personalities these thinkers are extraordinary and their respective contributions toward overcoming the reign of chaos and old night are among the noblest of human achievements introductory note

through a close reading of two presocratic philosophers heidegger demonstrates that all of western philosophy is rooted in the question of being this volume comprises a lecture course given at the university of freiburg in 1932 five years after the publication of being and time during this period heidegger was at the height of his creative powers which are on full display in this clear and imaginative text heidegger analyses two of the earliest philosophical source documents

fragments by greek thinkers anaximander and parmenides heidegger develops their common theme of being and non being and shows that the question of being is indeed the origin of western philosophy his engagement with these greek texts is as much of a return to beginnings as it is a potential reawakening of philosophical wonder and inquiry in the present

the blackwell dictionary of western philosophy the blackwell dictionary of western philosophy the style is fresh and engaging and it gives a broad and accurate picture of the western philosophical tradition it is a pleasure to browse in even if one is not looking for an answer to a particular question david pears its entries manage to avoid the obscurities of an exaggerated brevity without stretching themselves out as if seeking to embody whole miniature essays in short it presents itself as a model of clarity and clarification alan montefiore

arranged in chronological order from the ancient greeks to the present day a history of western philosophy in 500 quotations features the most important quotations from over two and a half thousand years of western philosophy including socrates affirmation that the unexamined life is not worth living descartes famous conclusion i think therefore i exist rousseau s claim that man is born free and everywhere he is in chains nietzsche s declaration that god is dead and sartre s assertion that existence precedes essence however this more than a collection of witty aphorisms and pithy one liners this collection also features subtle philosophical arguments on morality the nature of knowledge the existence of god and many other topics an essential collection for anyone looking to quickly familiarize themselves with the most important ideas in the history of western philosophy

the eighth edition of steven m cahn s classics of western philosophy offers the same exacting standard of editing and translation that made earlier editions of this anthology the most highly valued and widely used volume of its kind but the eighth edition offers exciting new content as well plato s laches complete new selections from aristotle s nicomachean ethics on courage descartes discourse on method complete all previously omitted sections of berkeley s a treatise concerning the principles of human knowledge kant s prolegomena to any future metaphysics complete these additions with no offsetting deletion of content of the seventh edition yield an anthology of unrivaled versatility the only one to offer the complete texts of both descartes discourse on method and meditations on first philosophy both berkeley s a treatise concerning the principles of human knowledge and three dialogues between hylas and philonous kant s prolegomena to any future metaphysics and selections from the critique of pure reason

the origins of the western philosophical tradition lie in the ancient greco roman world this volume provides a unique insight into the life and writings of a diverse group of philosophers in antiquity and presents the latest thinking on their

views on god the gods religious belief and practice beginning with the pre socratics the volume then explores the influential contributions made to the western philosophy of religion by the three towering figures of socrates plato and aristotle the chapters that follow cover the the leading philosophers of the major schools of the ancient world epicureanism stoicism neoplatonism and the early christian church ancient philosophy of religion will be of interest to scholars and students of philosophy classics and religion while remaining accessible to any interested in the rich cultural heritage of ancient religious thought

no one has the time or inclination to read a large book on western philosophy you are busy the problem with large books as most books on western philosophy are is that you cannot see the wood for the trees in this lighthearted book the author examines the main subject matters on which western philosophy debates in every science there are assumptions analysis and conclusions the author shows that the subject matter of western philosophy the conclusions are similar to the assumptions and that if one cuts out all unnecessary paperwork western philosophy is easily understandable by everyone he believes however that with the amount of written work that the typical western philosopher produces on any one topic that the philosophers themselves do not understand their own analyses and frequently make mistakes the roots of all western philosophy came from india and then two gentlemen by the names of socrates and plato became famous as the greatest or perhaps nearly greatest western philosophers of all time the author discusses their work again in brief his conclusion is that there is nothing of value to be learnt from western philosophy

plato aristotle augustine hume kant hegel every student of philosophy needs to know the history of the philosophical discourse such giants have bequeathed us philosopher c stephen evans brings his expertise to this daunting task as he surveys the history of western philosophy from the pre socratics to nietzsche and postmodernism and every major figure and movement in between

here is the concluding volume of sir anthony kenny s monumental four volume history of philosophy the first major single author narrative history to appear for several decades in this volume kenny tells the fascinating story of the development of philosophy in the modern world from the early nineteenth century to the end of the millennium alongside and intertwined with extraordinary scientific advances cultural changes and political upheavals the last two centuries have seen some of the most intriguing and original developments in philosophical thinking which have transformed our understanding of ourselves and our world in the first part of the book kenny offers a lively narrative introducing the major thinkers in their historical context among those we meet are the great figures of continental european philosophy from schopenhauer kierkegaard and nietzsche to heidegger sartre and derrida the pragmatists such as c s pierce and william james who first developed a distinctively american philosophical tradition marx darwin and freud the non

philosophers whose influence on philosophy was immense and wittgenstein and russell friends and colleagues who set the agenda for analytic philosophy in the twentieth century kenny then proceeds to guide the reader lucidly through the nine main areas of philosophical work in the period offering a serious engagement with ideas and arguments about logic language epistemology metaphysics ethics aesthetics politics and the existence of god graced with many beautiful illustrations philosophy in the modern world concludes kenny s stimulating history of the intellectual development of western civilization allowing readers to trace the birth and growth of philosophy from antiquity to the present day
