the handbook of jungian psychology provides a comprehensive systematic and competent treatment of the central tenets of jung's work it will be a unique source of authoritative information on jungian psychology

this collection of essays examines the way complexes and archetypes manifest in the particulars of our personal and social lives through theoretical chapters and practical case analyses the book's authors provide key insights which address questions of personal identity gender in the psyche individuation in the unmarried to have or not to have children the mythical dimensions of university unrest as well as the psychological significance of video games pop culture icons and declining rates of participation in organized religion this important contribution to the emerging field of jungian psycho-social studies shows how complexes and archetypes remain relevant to a society which

is profoundly different from jung's own

the xxii international congress for analytical psychology was held in buenos aires argentina and for the first time in south america it was also the first such congress delivered in hybrid form bringing together iaap members from all over the globe in person and on screens guests interested in jungian thinking from various other academic fields were invited and joined in the conversations the theme of opening to the changing world was explored as we come out of a pandemic and face the imperative of fast changes to our ways of working and relating to people living beings and the planet we inhabit the congress offered again ways of exploring themes via a rich programme of pre congress workshops masterclasses plenary and breakout presentations and posters the proceedings are published as two volumes a printed edition of the plenary presentations and an e book with the complete material presented at the congress to professionals as well as the general public this collection of papers offers a cross section and inspiring insight into contemporary jungian thinking spanning from classical theories to the latest scientific research from the contents soul myth and cosmovision in a changing world essentials of analytical psychology and the descendent path by margarita ovalle vergara devouring and asphyxia by liliana wahba walter boechat some questions raised by the practice of tele analysis by françois martin vallas covid 19 virtual engagement and the psychoid imagination by joe cambray working online during the contemporary covid 19 pandemic by john merchant the syzygy reformulation and new perspectives dreams anima animus androgynous and gender by mario saiz et al enforced disappearances and torture today a view from analytical psychology by maria giovanna bianchi monica luci dreaming for the world a jungian study of dreams during the covid 19 pandemic by ronnie landau roger brooke et al the archetype of calamity reflections at a time of contagion by mei fun kuang ying li jun xu collective trauma implicit memories the body and active imagination in jungian analysis by karin fleischer intimations of immortality by robin mccooy brook jon mills

exploration of the arabic psychological theory underlying piers plowman and the interpretive insights this offers the psychology underlying passus 8 20 of piers plowman remains unexplored in its entirety despite single articles on separate psychological personifications professor kaulbach aims to remedy this huge gap in our understanding of langland's poem by adducing a psychology which not only illuminates previously mysterious relations between psychological actants but also reveals that many apparently non psychological figures piers plowman for example are best explained by reference to psychological theory the body of psychological theory on which the author draws is that of arabic specifically avicennan theory of the prophetic mental act the vis imaginativa or ymaginatif in middle english beyond the original interpretative insights offered by this book professor kaulbach also describes the intellectual and manuscript context in which arabic psychology was made available to a late fourteenth century english poet ernest n kaulbach is associate professor of english classics and occasionally philosophy at the university of texas at austin

sexuality and gender now uses a psychoanalytic approach to arrive at a more informed view of the experience and relationships of those whose sexuality and gender may not align with the heterosexual norm this book confronts the heteronormative bias dominant in psychoanalysis using a combination of theoretical and clinical material offering an important training tool as well as being

relevant for practicing clinicians the contributors address the shift clinicians must make not only to support their patients in a more informed and non prejudicial way but also to recognise their own need for support in developing their clinical thinking they challenge assumptions deconstruct theoretical ideas extend psychoanalytic concepts and importantly show how clinicians can attend to their pre conscious assumptions they also explore the issue of erotic transference and countertransference which if unaddressed can limit the possibilities for supporting patients more fully to explore their sexuality and gender theories of psychosexuality have tended to become split off from the main field of psychoanalytic thought and practice or read from an assumed moral high ground of heteronormativity the book specifically addresses this bias and introduces new ways of using psychoanalytic ideas the contributors advocate a wider and more flexible attitude to sexuality in general which can illuminate an understanding of all sexualities including heterosexuality sexuality and gender now will be essential reading for professionals and students of psychoanalysis who want to broaden their understanding of sexuality and gender in their clinical practice beyond heteronormative assumptions

contains the first printing of sartor resartus as well as other works by thomas carlyle
