this book explores the extent of private companies freedom of action during the
nazi period through six case studies of different economic sectors since the mid
1990s historical research has intensively discussed the role played by private
domestic and foreign enterprises during the third reich numerous case studies
suggest that even under the extreme ideological circumstances of the third reich
the strategic decisions of private firms followed economic criteria in fact the regime

was especially able to control the economy successfully in those cases in which it operated with economic incentives and gave companies room for manoeuvre this scope however became increasingly smaller towards the end of the war due to increasing state intervention and government control the chapters discuss this scope of action and relate it to the national socialist crimes this book was originally published as a special issue of business history

andreas schertzing identifies determinants of successful transactions such as transaction timing and diversifying transaction strategy through a multivariate statistical analysis two case studies illustrate success factors specifically related to the conduct of transactions in greater detail
