excerpt from chemistry and its uses a textbook for secondary schools throughout the text a great many items of interesting information as well as supplementary explanation have been thrown into subordinate type it is believed that the matter in large type is complete in itself and nowhere dependent on the subordinate paragraphs however it is thought that so much of interest will be found in these paragraphs that the teacher can easily induce the student to read them even if they are regarded as excess material directions for laboratory work will be found in a separate volume about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

excerpt from principles of secondary education a textbook the appendices of the first edition are now omitted having become comparatively useless by reason of rapid changes in the high school curriculum and having been made mostly unnecessary by the accessibility of recent data upon courses of study the most prominent purpose of the remainder of the volume is to reveal through an analysis of the content of the studies themselves their inherent and comparative educational value and upon the basis of the values thus established to determine the best possible combination of the studies into the various curricula now demanded a second purpose of almost equal weight is to show how upon the basis of the proposition that education for insight must always be accompanied by training for efficiency secondary education can most effectively perform its proper functions about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in

the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

international academic conferences management economics and marketing teaching learning and e learning engineering transport it and artificial intelligence

excerpt from principles of secondary education a text book it is the aim of this volume to make an initial statement of such principles in the form of a text book for college and university classes that there is need for such a work in english is evident whether we consider the magnitude of the interests now involved in the american high school or the influence exerted by the monumental german works on gymnasial education from schrader to bau meister or the inadequacy of elementary professional training as a preparation for high school teaching about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this book is the second in a two volume set examining the social history of the hanjiang river region in southern china from the song dynasty to the modern era it explores how clan structures temple networks and overseas chinese communities shaped the region s development the volume first analyzes the evolution of social power structures during the qing dynasty showing how state systems influenced local development through clan organization and maritime trade networks it then looks at how shantou grew as an important city and how chinese charities beliefs and networks around the south china sea grew too the text documents the region s transformation into a distinctive hometown society defined by its overseas connections and evolving

cultural identities this volume is an essential resource for scholars and students of pre modern and modern chinese social history historical anthropology china s modern trade networks overseas communities and diaspora studies

this book explores the role of education in the formation of the singapore developmental state the book provides a historical study of citizenship education in singapore whereby a comparative study of history civics and social studies curricula and the politics and policies that underpin them are examined
