the latest advancement in financial technology has posed unprecedented challenges for incumbent banks this paper analyzes the implications of these challenges on bank competitiveness and explores the factors that could support digital advancement in banks the analysis shows that the traditionally leading role of banks in advancing financial technology has diminished in recent years and suggests that ongoing efforts to catch up to the digital frontier could lead to a more concentrated banking industry as smaller and less tech savvy banks struggle to survive cross country evidence has suggested that banks in high income economies appear to have been the digital leaders likely benefiting from a sound digital infrastructure a strong legal and business environment and healthy competition nonetheless some digital leaders may fall behind in the coming years in adopting newer technologies due to entrenched consumer behavior favoring older technologies less active fintech and bigtech companies and weak bank balance sheets

over the past decade financial service innovations have contributed to a completely new way in which customers can bank threatening the status quo of traditional retail banks and redefining a banking model which has been in place for generations these new technological advancements have facilitated the rapid emergence of digital banking firms and fintech companies leading to established banks being forced to swiftly increase their pace of digital adoption to stay relevant and stop mass client attrition to these agile financial start ups these threats come at an inopportune time for banks due to mature markets currently experiencing stagnant growth this coupled with decreasing profit margins due to the competitive pricing of new entrants and financial customer loyalty becoming ever increasingly more tenuous

this volume the result of the 21st conference on postal and delivery economics ireland 2013 describes the continuing problem of the decline of the postal sector in the face of electronic competition and offers strategies for the survival of mail s

this book surveys major economic issues in the development of countries in the middle east and north africa mena region since world war ii it presents a framework of analysis highlighting underlying continuities in the region s approach to issues of growth management of oil and natural resources post conflict environments progress in trade liberalization and regional integration the use of industrial policy labor market adjustment and unemployment educational attainment and poverty incidence at the same time this book focuses on emerging differences across countries in the region in the prevailing approach to addressing such challenges most notably between the economies of the gulf cooperation council and other mena countries this book also incorporates a discussion of tools and methods used by development practitioners and briefly examines issues of aid effectiveness the approach used is intended to appeal to a wide audience including students of economic development political scientists and development practitioners

it has been the endeavour of each state to fulfill the basic needs of its citizens which are primarily food clothing and shelter if the governments fail to fulfill

these needs for the welfare of their citizens according to the principles of justice they are not legitimate food takes the priority over all the other needs which implies that agricultural sector gets top most priority in india there are thousands of marginal farmers who struggle to make both ends meet along with agriculture sector there are other sectors which play an important role to uplift the poor people as a financial coverage banking sector in india treat agriculture small scale industry and other sectors of prime importance from the socio economic development point of the nation as a priority sectors and allot substantial portion of their lending to these sectors

the banking industry is currently more than ever on the move low interest rates eu driven regulatory requirements and particularly the proceedings in digitalization have led the banking industry into a new age of banking the digitalization of business processes and banking services have forced the banks to rethink their business model as a consequence the multi channel approach needs to be extended by an interactive communication service called video banking video banking enables customers to conduct their banking activities independent from their location by using a smartphone or notebook since video banking is a relatively new service in the banking industry the customers are not acquainted with it that far to launch video banking successfully the customers need to be convinced by the new service
