excerpt from myths and myth makers old tales and superstitions interpreted by comparative mythology in publishing this somewhat rambling and unsystematic series of papers in which i have endeavoured to touch briefly upon a great many of the most important points in the study of mythology i think it right to observe that in order to avoid confusing the reader with intricate discussions i have sometimes cut the matter short expressing myself with dogmatic definiteness where a sceptical vagueness might perhaps have seemed more becoming in treating of popular legends and superstitions the paths of inquiry are circuitous enough and seldom can we reach a satisfactory conclusion until we have travelled all the way around robin hood s barn and back again i am sure that the reader would not have thanked me for obstructing these crooked lanes with the thorns and brambles of philological and antiquarian discussion to such an extent as perhaps to make him despair of ever reaching the high road about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this collection first published in 1992 offers critical interpretive essays on various aspects of the work of joseph campbell 1904 1987 one of a very few international experts on myth joseph campbell examines myths and mythologies from a comparative point of view and he stresses those similarities among myths the world over as they suggest an existing transcendent unity of all humankind his interpretations foster an openness even a generous appreciation of all myths and he attempts to generate a broad sympathetic understanding of the role of these stories in human history in our present day lives and in the possibilities of our future

this book is a fascinating scientific inquiry into the question of how humans came to the existence that we know today the goal for this book is to serve as a handbook of comparative mythology a large portion of text is dedicated to retelling condensed

versions of the ancient myths of the world so that a beginning scholar may attain a worldly knowledge of cultural myths that they can compare independently in addition to this large body of mythological evidence a matrix method of comparable characters is presented such that a common thread of history emerges by comparing outlines of stories from around the world the basic storyline of history includes parts from all religions the history of the world as we currently understand it will dramatically change by three discoveries presented in this book first is evidence and mathematical proof that ancient earth was struck by a portion of halley s comet second is discovery of an ancient map of the world encrypted into the body of an ancient fresco third is discovery of a matrix method giving mathematical probability to characters often thought purely mythical this book promises to offer the greatest paradigm shift in thinking on human history since darwin and in doing so it presents a return to many of the greatest arts and literature stories the world has ever known in simple real life stories what the matrix method means is that the mythological characters of father heaven and mother earth show up in most cultural myths as the first set of parents to the world sea and sun and moon are of the second generation thunder and underworld are of the third generation matrix comparison leads to the conclusion that a universal pantheon of founders once existed where it gets really interesting is the point where recognizable historic figures relate to the same entities as mythical characters zeus is the same person as ramses 1 hera is the same person as nefertiti and sara and ishtar this book will be of interest to artists and scientists as well as historians religious scholars and storytellers
