this book is a comparative study of the exclusion of illegally gathered evidence in the criminal trial which includes 15 country studies a chapter on the european court of human rights and a comparative synthetic conclusion no other book has undertaken such a broad comparative study of exclusionary rules which have now become a world wide phenomenon the topic is one of the most controversial in criminal procedure law because it reveals a constant tension between the criminal court s duty to ascertain the truth on the one hand and its duty to uphold important constitutional rights on the other most importantly the privilege against self incrimination and the right to privacy in one s home and one s private communications the chapters were contributed by noted world experts on the subject for the xviii congress of the international academy of comparative law in washington in july 2010

derived from the renowned multi volume international encyclopaedia of laws this book provides a practical analysis of criminal law in Italy an introduction presents the necessary background information about the framework and sources of the criminal justice system and then proceeds to a detailed examination of the grounds for criminal liability the justification of criminal offences the defences that diminish or excuse criminal liability the classification of criminal offences and the sanctions system coverage of criminal procedure focuses on the organization of investigations pre trial proceedings trial stage and legal remedies a final part describes the execution of sentences and orders the prison system and the extinction of custodial sanctions or sentences its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for criminal lawyers prosecutors law enforcement officers and criminal court judges handling cases connected with Italy academics and researchers as well as the various international organizations in the field will welcome this very useful guide and will appreciate its value in the study of comparative criminal law

the book provides an overview of the right to counsel and the attorney client privilege in the following 12 jurisdictions China Germany Greece Italy Japan the Netherlands Portugal Spain Switzerland Turkey UK and USA the right to counsel is a fundamental right providing the accused access to justice in criminal proceedings lawyers can only practice their profession properly if clients have complete trust in their lawyer's discretion this trust is safeguarded by the attorney client privilege which is an indispensable part of every constitutional state and one of the most important professional duties of a lawyer it is of particular importance in criminal proceedings regarding the protection of the confidentiality of lawyer client communications in the different procedural stages coercive measures as well as the various duties and interests in play however the communications protected by attorney client privilege vary greatly from country to country with regard to criminal investigations in an increasingly globalised world where sophisticated tools enable broad digital investigations there is an urgent need to clarify how this fundamental right is protected at both the national and supranational level each chapter explores the regulations practices and recent developments in each jurisdiction and was written by highly qualified experts in the legal field from academia and practice alike it identifies possible solutions and best practices providing valuable insights for practitioners and law making bodies alike regarding the actual protection or lack thereof of lawyer client confidentiality in the pretrial and trial stage of criminal proceedings

dx doi.org/10.12946/gplh6.epubli.de/shop/buch/53894 the spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today it still has not been the object of a focused inquiry against this background the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue the aim of this volume however is not to offer abstract methodological considerations but rather to rely both on concrete studies out of which a reflection on this conjunction emerges as well as on the reconstruction of certain research lines featuring a spatiotemporal component this analytical approach makes a contribution by providing some suggestions for the

employment of space and time as coordinates for legal history indeed contrary to those historiographical attitudes reflecting a monistic conception of space and time as well as a eurocentric approach the book emphasises the need for a delocalized global perspective in general terms the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines the flexibility of those instruments that serve to create chronologies and scenarios as well as certain processes of adaptation of law to different times and into different spaces the spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes but also to achieve new and compelling interpretations of legal history as far as the relationship between space and law is concerned the book analyses experiences in which space operates as a determining factor of law e g in terms of a field of action for law moreover it outlines the attempted scales of spatiality in order to develop legal historical research with reference to the connection between time and law the volume sketches the possibility of considering the factor of time not just as a descriptive tool but as an ascriptive moment quasi an inner feature of a legal problem thus making it possible to appreciate the synchronic aspects of the juridical experience as a whole the volume aims to present spatiotemporality as a challenge for legal history indeed reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline

this book analyses current developments in europe and latin america towards the greater involvement of the parties in the administration of criminal justice focusing on both national criminal proceedings and transnational cases this study employs a comparative law approach to examine the shift experienced by italy and brazil from the long tradition of mixed criminal justice to unprecedented adversarial trends the identification of common needs and divergences from the national approach to criminal justice paves the way for a subsequent analysis of new solution models emerging from international human rights law and eu law to a great extent these developments are due to the increasing impact of international human rights case law on the criminal justice systems of the countries in question the book concludes by proposing a set of qualitative requirements for a participatory model of criminal justice
