i first became interested in genealogy when i was about twelve it was then that my paternal grandmother first introduced me to a book entitled genealogy of the fell family in america descended from joseph fell this book which was published in 1891 included my grandfather charles mcconnell lightburn i was struck by the time span covered by the book nearly three hundred years and was fascinated by the fact that all of the people in that book were related to one another and to me either by blood or marriage my grandmother later gave me that book and it became the first book in my genealogical library my grandfather and my great aunt mary told me that their father had fought for the north during the civil war by the side of his older brother who was a brigadier general this fascinated me they also told me that there was a town in west virginia called lightburn i couldn t wait to find it on a map my own genealogical research did not begin until the late 1970s when i requested the civil war records of my great grandfather calvin luther lightburn and his brothers from the national archives during the 1980s i continued my research albeit at a very low level of activity it was not until the early 1990s when i moved to the washington dc area that i became intensively involved in some might even say addicted to

genealogy the resources in the washington dc area are extensive and i ended up spending many happy and sometimes frustrating hours conducting research in the national archives library of congress and the library of the daughters of the american revolution by 1999 i had amassed a great deal of genealogical information most of which was stuffed in cardboard boxes i was encouraged to put what i had on paper by faye m brown lightburn who had published her book revolutionary soldier samuel brown and some of his family in 1993 so after attending several related sessions at the national genealogical society conference in the states which was held that year in providence rhode island i finally screwed up my courage and plunged in i published the original book in 2003 this book is the second and probably last edition

landmark political confrontations between sitting presidents and powerful senators have occurred throughout american history some have shaped the nation this book takes an in depth look at seven of those major washington wars including the personal rivalries that spawned each one the strategies and events that transpired as a result and the aftermaths and impacts on the country neither compromise nor surrender were considered in these intense debates which left scars on the national psyche each episode could be worthy of a historical narrative all its own but considered together they illustrate the long and bitter history of democratic warfare between the leaders and branches of government at either end of pennsylvania avenue
