- 1 Analyzing Transactions This is where you determine the impact of a transaction on the accounting equation Assets Liabilities Equity
- 2 Journalizing You record the transaction in a journal using debits and credits to keep the accounting equation in balance
- 3 Posting to the Ledger The information from the journal is transferred to the ledger which is a collection of individual accounts for each asset liability and equity item
- 4 Preparing a Trial Balance This is a list of all accounts and their balances ensuring that the debits equal the credits
- 5 Adjusting Entries These are adjustments made at the end of an accounting period to ensure that revenue and expenses are accurately reflected
- 6 Preparing Financial Statements This is where you create the income statement statement of retained earnings balance sheet and statement of cash flows
- 7 Closing Entries These entries bring all temporary accounts revenue expense and dividends to zero at the end of the accounting period
