the term full reserve fr refers here to the system advocated by the following among others 1 laurence kotlikoff economics professor in boston see kotlikoff 2012 however for a quick introduction to kotlikoff s ideas see klein 2013 2 richard werner economics professor in southampton uk see werner 2011 3 milton friedman see friedman 1960 ch3 starting at heading entitled banking reform 4 james tobin economics nobel laureate see tobin 1985 1987 5 merton miller economics nobel laureate and co author of the modigliani miller theory 6 ben dyson founder of positive money see dyson 2012 7 john cochrane economics professor in chicago see cochrane 2013 8 irving fisher professor of political economy at yale in the early 1900s see fisher 1936 fr is sometimes called 100 reserve banking while german speakers use the word vollgeld the following few paragraphs are a brief summary of fr commercial banks create money when they make loans as explained by an article published by the bank of england mcleay 2014 and that freedom to create money is a subsidy of banks for reasons given by for example huber 2000 p 31 2nd paragraph as huber says if commercial banks can simply print the money they lend out rather than obtain such money in the same way every non bank firm obtains money i e earn it or borrow it then commercial banks can lend at an artificially low rate of interest or to put it more strongly as explained by the nobel laureate economist maurice allais private money creation amounts to counterfeiting see phillips 1992 another flaw in the

existing bank system is that it breaks a widely accepted principle namely that it is not the job of taxpayers to rescue commercial ventures which go wrong that is while everyone has a right to a totally safe method of lodging and transferring money and while that activity is not inherently commercial anyone who wants their bank to lend on their money so as to earn interest is clearly into commerce in exactly the same way as where they deposit money with a private pension scheme stockbroker mutual fund unit trust or buy corporate bonds for governments to offer taxpayer backed deposit insurance for banks which invest or lend on money while not offering the same service for mutual funds etc which do the same is a glaring inconsistency

maths now is a series of eight books for classes 1 to 8 based on the ncert syllabus the series follows an activity oriented approach to make mathematics engaging for students through emphasizing connections between mathematics and day to day experiences

a journal devoted to banking law and practice for bankers and bank attorneys includes articles notes on court cases and summaries of legislation

this compact and concise study provides a clear insight into the concepts of core banking solution cbs a set of software components that offer today s banking market a robust operational customer database and customer administration it attempts to make core banking solution familiar to the professionals and regulatory authorities who are responsible for the control and security of banks and shows that by using cbs banking services can be made more customer friendly this well organized text divided into two parts and five sections begins part i with the need for core banking solution technology in banking system its implementation and practice it then goes on to a detailed discussion on various technology implications of atm internet banking cash management system and so on part i concludes with business continuity planning bcp and disaster recovery planning dcp part ii focuses on components of audit approach of a bank where the core banking solution has been in operation besides usage of audit tools and study of audit logs have been discussed key features suggested checklists for performing audits are included an exclusive chapter is devoted to case studies based on fraudulent activities in banks due to lack of security and controls useful references have been provided contains relevant standards of international body isaca usa this book would be useful for the chartered accountants who are auditors of various banks it would help the external system auditors and the auditors who perform concurrent system audit of banks and also for the officers of the department of banking supervision of the reserve bank of india and others who have the responsibilities of regulating the security and controls in the banks in addition it would be extremely useful to the bankers who have information technology as one of the subjects for the caiib examination this book is a trailblazer in the indian banking scene it makes tremendous and vital contribution to the aspect of computer assurance and risk management in banking n vittal i a s retd former central vigilance commissioner
