grammar for teachers a guide to american english for native and non native speakers is a result of my frustrations over many years of teaching graduate level structure courses and not being able to find an appropriate grammar text for the pre and in service teachers enrolled in these classes the students in these courses have represented a variety of teaching backgrounds esl and efl teachers native and non nativespeakersof english and mainstreamcontent are teacherswith esl students in their classes to name a few some of these students have had a strong knowledge of english grammar but often have difficulties in applying their knowledge to real life discourse other students exposure has been limited to lessons in correctness and are generally unaware of which language features are central to

teaching esl efl learners some students are resistant to taking this course but are required to do so whether to satisfy specific degree requirements for state or professional certification or for other reasons a few students have had some linguistics many not the challenge has been finding a way to convey the essentials of american english grammar clearly to engage students actively in their own learning and understanding of grammar as applicable to esl efl learners and to motivate them to undertake perceptive analyses of grammatical elements and structures and of esl efl learner needs and difficulties the overall aim of grammar for teachers is to make grammar accessible and comprehensible

towards non being presents an account of the semantics of intentional language verbs such as believes fears seeks imagines graham priest tackles problems concerning intentional states which are often brushed under the carpet in discussions of intentionality such as their failure to be closed under deducibility priest's account draws on the work of the late richard routley sylvan and proceeds in terms of objects that may be either existent or non-existent at worlds that may be either possible or impossible since russell non-existent objects have had a bad press in western philosophy priest mounts a full-scale defence in the process he offers an account of both fictional and mathematical objects as non-existent the book will be of central interest to anyone who is concerned with intentionality in the philosophy of mind or philosophy of language the metaphysics of existence and identity the philosophy of fiction the philosophy of mathematics or cognitive representation in ai this updated second edition adds ten new chapters to the original eight these further develop the ideas of the first edition reply to critics and explore new areas of relevance new topics covered include conceivability realism antirealism concerning non-existent objects self-deception and the verb to be

this edited book addresses four themes of contemporary importance in the experimental and applied analysis of behaviour chronobiology relationships between time and behaviour the emergence of rational thinking language and behavioural medicine the current empirical and theoretical status of each theme is considered in individual chapters the authors of which are distinguished research scientists drawn from a wide range of scholarship and with a distinctive european dimension this cultural and theoretical diversity emerges from the fact that each chapter is developed from a paper originally presented by invitation at the second european meeting on the experimental analysis of behaviour which was held in liège belgium in 1988 within the four themes individual topics address issues such as circadian rhythms in behaviour temporal regulation in children and in animals the emergence of equivalence relations in children and animals the development of thinking in mentally retarded children reasoning and associative learning in animals rule-governed behaviour theoretical issues relating language to the theory of mind the relationship between behavioural and visceral functions the relevance of behavioural approaches to the prevention of aids and the development of self-detection skills for breast cancer the book makes an important contribution to the literature of contemporary behaviour analysis by reviewing issues of current interest and

importance from a broad theoretical base
