a groundbreaking contribution to the history of the long civil rights movement hammer and hoe tells the story of how during the 1930s and 40s communists took on alabama s repressive racist police state to fight for economic justice civil and political rights and racial equality the alabama communist party was made up of working people without a euro american radical political tradition devoutly religious and semiliterate black laborers and sharecroppers and a handful of whites including unemployed industrial workers housewives youth and renegade liberals in this book robin d g kelley reveals how the experiences and identities of these people from

alabama's farms, factories, mines, kitchens, and city streets shaped the party's tactics and unique political culture. The result was a remarkably resilient movement forged in a racist world that had little tolerance for radicals. After discussing the book's origins and impact in a new preface written for this twenty-fifth anniversary edition, Kelley reflects on what a militantly antiracist radical movement in the heart of Dixie might teach contemporary social movements confronting rampant inequality, police violence, mass incarceration, and neoliberalism.

Among the most influential political and social forces of the twentieth century, modern communism rests firmly on philosophical, political, and economic underpinnings developed by Vladimir Ilyich Ulyanov, later known as Lenin. For anyone who seeks to understand capitalism, the Russian Revolution, and the role of communism in the tumultuous political and social movements that have shaped the modern world, the works of Lenin offer unparalleled insight and understanding.

However divergent their analyses may be, in other ways some prominent anti-capitalist critics have remained critical of contemporary debates over reparative justice for groups historically oppressed and marginalized on the basis of race, gender, sexual identity, sexual preference, and/or ability, arguing that the most these struggles can hope to produce is a more diversity-friendly capital. Meanwhile, scholars of gender and sexuality as well as race and ethnic studies maintain that by elevating the socioeconomic above other logics of domination, anti-capitalist thought fails to acknowledge specific forms and experiences of subjugation. The thinkers and activists who appear in *Totality Inside Out* reject this divisive logic altogether. Instead, they aim for a more expansive analysis of our contemporary moment to uncover connected sites of political struggle over racial and economic justice, materialist feminist and queer critique, climate change, and aesthetic value. The reimagined account of capitalist totality that appears in this volume illuminates the material interlinkages between discrepant social phenomena, forms of oppression, and group histories, offering multiple entry points for readers who are

interested in exploring how capitalism shapes integral relations within the social whole contributors brent ryan bellamy sarah brouillette sarika chandra chris chen joshua clover tim kreiner arthur scarritt zoe sutherland marina vishmidt

liberalism is the political philosophy of equal persons yet liberalism has denied equality to those it saw as black sub persons in black rights white wrongs the critique of racial liberalism political philosopher charles mills challenges mainstream accounts that ignore this history and its current legacy in the united states today

this comprehensive handbook presents an overview of the conceptual legacies and contemporary issues surrounding the sociology of work contributing authors examine how the organisation and experience of work are shaped by the evolution of global capitalism trends in political economy and rapid technological developments this title contains one or more open access chapters

waligorski shows why there is such resilience and viability to this brand of liberalism the chapter on keynes is as good a short piece on the economist as can be found anywhere kenneth m dolbeare author of american political thought a coherent and insightful book by a sagacious thinker charles e lindblom author of politics and markets

on november 21 2006 an atlanta narcotics team served a no knock search warrant at 933 neal street after thirty nine shots were fired by police officers the ninety two year old owner of the home ms kathryn johnston lay dying three police officers were also injured by ricochets from their own weapons a subsequent fbi investigation revealed that the original application for the search warrant had been made with false information then covered up drugs were planted at ms johnston s home and police informants were instructed to lie about having witnessed both dealers and drugs at the home two of the three police officers most directly implicated in this case pled guilty to various charges including manslaughter while the third arthur

tesler pled not guilty to lesser charges and stood trial in atlanta in may 2008 this book offers an eyewitness account of what happened at that trial as well as an analysis of what the case suggests about the need and the prospects for democratic reform today
