like the first edition of this book this second edition has two main aims to provide a clear and relatively short statement of the most important rules concerning judicial control of governmental administrative activity and to provide a wider framework for understanding those rules this framework is provided by considering the constitutional context of judicial control the relationship between judicial control and other mechanisms for checking administrative activity and the impact of judicial control on the agencies subject to it what emerges clearly from considering judicial control in this wider context is that the role of the courts in adjudicating complaints about governmental administrative action is not that of neutral arbiter but that of active participant in the public decision
