social class is a pervasive facet of all lives regardless of one s own social class and status one would think its ubiquity would make it necessary for all helping professionals to understand social class and discuss it in therapy and research yet social class and classism are one of the most confusing and difficult concepts to understand and integrate into research and counseling practice mostly due to the relative lack of psychological theories research and quantitative data fulfilling this need this handbook summarizes and synthesizes available research on social class and classism in counseling practice and research areas the 32 chapters included offer up to date fascinating and provocative applications of social class and classism as seasoned chapter authors provide an overview of theories related to social class and classism and its application toward research education training and practice chapters include comprehensive coverage of lifespan issues related to social class such as unique aspects of social class and classism in the lives of children adolescents and older adults how social class is studied and empirically understood through research assessment and practice implications of social class in career counseling psychological assessment and diagnosis and the therapy relationship how social class is implicated in positive psychology career and work psychology and health psychology social class and classism and its connection to whiteness racism sexual orientation religion and spirituality and social justice this book offers the first compendium of counseling related resources on social class and classism and will be a comprehensive must have reference for professionals and academics in counseling psychology and related fields for years to come

assessment for social justice takes the established idea of assessment for learning and extends it to consider how assessment contributes to social justice within and through higher education jan mcarthur invites the reader to rethink familiar positions on assessment and fairness and seeks to explore the full complexity of a critical theory inspired notion of social justice she positions her work in contrast to more procedural approaches to social justice such as john rawls s influential theorisation of social justice in contrast mcarthur draws on the work of third generation critical theorist axel honneth and takes inspiration from honneth s three realms of mutual recognition in order to reconsider the nature of assessment relationships and practices a further theoretical strand is introduced in the form of social practice theory and particularly the work of theodore shatzki mcarthur provides a theoretically rigorous understanding of assessment as a social practice and as a vehicle both for and against social justice together with critical theory this work enables a realizable vision of an alternative approach to assessment in higher education where the underlying aim is greater social justice mcarthur argues that students must be nurtured to recognise the social contribution that they can make as a result of engaging with knowledge in higher education rather than defining their

achievements in terms of a mark grade or degree classification
