the ever evolving field of management in today s corporate world is marked by constant disruptions and turbulence the emergence of artificial intelligence ai and emotional intelligence ei presents opportunities for automation optimization and effective leadership but it also raises concerns about job displacement and the need to bridge the gap between these two

domains ai and emotional intelligence for modern business management bridging the gap and nurturing success offers solutions to closing the knowledge gap this book provides comprehensive insights and practical strategies to academic scholars researchers practitioners educators and students targeting a diverse audience this book serves as a solution oriented resource for navigating the complexities of ai and ei in business management by addressing both ai and ei the book equips readers with the necessary tools to integrate these domains seamlessly into modern business management practices stimulating informed discussions inspiring innovative approaches and fostering a deeper understanding of the opportunities and challenges posed by these emerging fields

the links between manpower management financial control and information management systems are clearly defined in business management a brief expos where an analysis of budgeting for manpower needed for production and marketing basic steps in accounting procedures and stages in data processing are expounded it is realised that whereas the factory processes raw materials and produces goods for sale a data processing department processes basic data and produces basic business documents and control information for management to keep them informed of events within the business this enables them to coordinate different activities of the organisation s functional groups and to control the day to day transactions and be in a position to take whatever corrective action is necessary to achieve the objectives of the particular business furthermore an efficient data processing system makes it possible to adjust the situation before it goes out of hand by adjusting income distribution and combating organisation inefficiency with carefully structured data processing systems a general method can be established for decision making or policy making in individual cases of manpower recruitment and development investment projects and income distribution a brief description of the complexities of economic and business affairs may be necessarily misleading but i hope that this booklet is not more misleading than the average of such materials it is an attempt to explain the immense complexity of the real world by logical theories which provide the student with worthwhile intellectual exercise and excitement business management a brief expos offers to the professional student the start up entrepreneur the small and medium size businessman and the business executive a preliminary survey of the fields of manpower development accountancy and electronic data processing the wider public whose enlightened interest is the mainspring of social progress may i hope find in its pages something to stimulate reflection upon those larger issues which

must be determined if at all by the consensus of their opinion the purpose of this booklet is to give the reader an insight into the way organisations emerge and grow and the relationships between manpower management financial management and management information systems in particular business management a brief expos will be of help to the busy chief executive officer who hardly has time to read through different volumes associated with manpower management financial control and computerised management information systems nevertheless more reading and details may be found in a handbook in business management by the same author jacob wilson chikuhwa has also published a number of books on zimbabwe s socio economic developments

principles of business and management is a refreshing introductory book to business studies it features examples which are easy to understand as they are drawn from everyday experiences a wide range of questions which help the reader to appreciate the pervasive nature of business in their environment today case studies with sample answers that act as a guide to tackling examination questions while appreciating the challenges of business broad coverage of business and management concepts which are prevalent in the business world today it is this approach that makes the book an enjoyable read as well as a powerful companion for introduction to business and management

an excellent book for commerce students appearing in competitive professional and other examinations 1 management meaning characteristics and functional area 2 management nature principles levels and limitations 3 functions of management and managerial roles 4 development of management thought 5 planning 6 types of plans and corporate planning 7 management by objectives m b o 8 decision making 9 environment analysis and diagnosis 10 nature and process of organisation 11 organisation structure and forms of organisation 12 departmentation 13 authority responsibility and delegation of authority 14 centralisation and decentralisation 15 direction concept and techniques 16 managerial control 17 techniques of control 18 motivation 19 leading and leadership 20 co ordination meaning and nature 21 communication 22 management of change
