leaders in the field provide an introduction to the multidisciplinary collaborations of social neuroscience this collection of essays by a group of distinguished social neuroscientists provides the reader with an engaging overview of this emerging multidisciplinary and collaborative field in the twentieth century the arbitrary barrier between neuroscience and social psychology was reinforced by the specialized knowledge required by each field and an emphasis on scientific work in isolation from other disciplines the biological and social perspectives on mind and behavior developed for the most part independently of each other neuroscientists often considered social factors irrelevant or minimally important while cognitive and social scientists tended to ignore biological constraints and mechanisms as leading to what they mistakenly thought of as reductionism by the end of the twentieth century however as those working in both fields were spurred by the common goal of understanding how the mind works systematic collaborations between neuroscientists and cognitive scientists had begun these collaborative efforts have already helped unravel aspects of perception imagery attention and memory these essays by leaders in the field reflect the range of disciplines engaged and questions addressed today in social neuroscience topics include maternal effects and chromatin modeling oxytocin and the prairie vole a love story pheromones social odors and the unconscious and memory

this is one of a pair of volumes by paul kroll the companion volume deals with medieval taoism and the poetry of li po collecting eleven essays by this leading scholar of chinese poetry the volume presents a selection of studies devoted to the medieval period centering especially on the t'ang dynasty it opens with the author's famous articles on the dancing horses of t'ang on the emperor hsüan tsung's abandonment of his capital and forced execution of his prized consort and on poems relating to the holy mountain tai shan with special attention to li po following these are detailed examinations of landscape and mountain imagery in the poetry of the high t'ang period in the mid 8th century and of an extraordinary attempt made in the mid 9th century to recall in verse and anecdote the great days of the high t'ang the second section of the book includes two articles on birds notably the kingfisher and the egret in medieval poetry and four of kroll's influential studies focusing on the verse form known as the fu or rhapsody especially drawing from the 3rd century poet ts'ao chih and the 7th century poet lu chao lin

aristotle's philosophy of mind has recently attracted renewed attention and respect from philosophers this volume brings together outstanding new essays on de anima by a distinguished international group of contributors including in this paperback edition a new essay by myles burnyeat the essays form a running commentary on the work covering such topics as the relation between body and soul sense perception imagination memory desire and thought the authors writing with philosophical subtlety and wide ranging scholarship present the philosophical substance of aristotle's views to the modern reader they locate their interpretations firmly within the context of aristotle's thought as a whole

these collected essays from leading figures in cognitive psychology represent the latest research and thinking in the field the volume is organized around four endelian themes

encoding and retrieval processes in memory the neuropsychology of memory classificatory systems for memory and consciousness emotion and memory
