This review provides an in-depth analysis of the workbook's content, structure, effectiveness, and suitability for different users.

**Overview of the Coping Cat Program** The Coping Cat program originated from a structured cognitive-behavioral therapy (CBT) protocol developed by Philip C. Kendall, a pioneer in childhood anxiety treatment. The workbook is an extension of this program, designed to be used either within therapist-led sessions or as a guided self-help resource for children and their families. The central Coping Cat Workbook 6 premise of the Coping Cat Workbook is to teach children how to recognize their anxiety symptoms, understand the thoughts that contribute to their feelings, and employ specific coping strategies. These include relaxation techniques, cognitive restructuring, problem-solving, and exposure to feared situations in a gradual, controlled manner. The workbook's structure is designed to be engaging and age-appropriate, featuring colorful illustrations, interactive exercises, and relatable scenarios. It aims to foster both understanding and practical application of anxiety management skills.

Final Verdict The Coping Cat Workbook is a valuable resource for children, parents, and mental health professionals aiming to address childhood anxiety with a structured, evidence-based approach. Its engaging design, clear structure, and practical exercises make it accessible and effective for fostering anxiety management skills in young people.
