the primary purpose of this book is to invite educators to re think what it means to critically conceptualize knowledge about the world in other words imagining curriculum in a critical way means decolonizing mainstream knowledge about global societies such an approach re evaluates how we have come to know the world and asks us to consider the socio political context in which we have come to understand what constitutes an ethical global imagination a critical reading of the world calls for the need to examine alternative ways of knowing and teaching about the world a pedagogy that recognizes how diverse subjects have come to view the world a critical question this book raises is what are the radical ways of re conceptualizing curriculum knowledge about global societies so that we can become accountable to the different ways people have come to experience the world another question the book raises is how do we engage with complexities surrounding social differences such as gender race ethnicity religion etc in the global contexts analyzing global issues and events through the

prism of social difference opens up spaces to advocate a transformative framework for a global education curriculum transformative in the sense that such a curriculum asks students to challenge stereotypes and engages students in advocating changes within local global contexts a critical global perspective advocates the value of going beyond the nation state centered approach to teaching about topics such as history politics culture etc it calls for the need to develop curriculum that accounts for transnational formations an intervention that asks us to go beyond issues that are confined within national borders such a practice recognizes the complicated ways the local is connected to the global and vice versa and cautions against creating a hierarchy between national and global issues it also suggests the need to critically examine the pitfalls of forming dichotomies between the local or the national and the global or the center and the periphery

more than 40 years ago recognizing that higher education would have to take responsibility for educating americans about other world cultures and societies congress passed the national defense education act later known as the higher education act title vi of this act has provided extensive support for foreign languages and area studies development in the nation s universities and colleges as a result millions of americans have been able to acquire knowledge about other parts of the world today there are new issues demands and perspectives americans are more likely than ever to encounter different cultures business practices histories ideologies and ways of life in addition the united states is increasingly called upon to intervene or mediate in regional and local crises far beyond its borders u s educational institutions must continue to help citizens to have informed opinions about complex international problems changing perspectives on international education is designed to be used by administrators and planners in u s education it covers the field of international studies as it has developed in the united states from its beginnings and accomplishments under title vi to the current paradigmatic shifts taking place in research teaching and outreach a major section is devoted to internationalizing the curriculum of k 12 schools it concludes with a look at future trends and how they may affect international scholarship and training in the new century it also provides an extensive bibliography of international resources

at last there is a lucid well written ob book which covers key issues required in ob teaching but which has a mind of its own students and faculty will recognize this is more than standard fare bill cooke manchester business school

this popular book provides a compelling introduction to thinking about childhood in rigorous and critical ways karen wells offers a unique global perspective on children s lives showing how the notion of childhood varies widely and is continuously being radically re shaped taking children seriously as active participants in society the book explores key social issues such as how children are constituted as raced classed and gendered subjects how school and work operate as sites for the governing of childhood and how children both shape and are shaped by politics culture and the economy taking an engaging historical and comparative approach the book discusses wide ranging topics including children s rights the family play labour migration and trafficking in addition to updated literature throughout this revised third edition includes extensive new material on children s activism politics and war and a whole new chapter on

juvenile justice the book will continue to be of great value to students and scholars in the fields of sociology geography social policy and development studies it will also be a valuable companion to practitioners whose work involves or impacts children as well as to anyone interested in childhood in the contemporary world

for a long time the idea of china as a culture and society which was voluntarily secluding itself from the rest of the world was dominant but in reality china has always been part of the world just as the world has always sought to penetrate china the relationship between china and the world was in the past sometimes smooth and at other times it was difficult but nevertheless the bond remained alive this collection presents an analysis of china from a global perspective within a broad temporal and spatial spectrum it reveals the early relations established between the roman empire and china the dynamics developed with the countries of the indian ocean southeast asia and japan and the gradual path of europeans and americans towards china the book reviews the development of diplomatic relations the signing of agreements and alliances and the rise and resolution of conflicts it also analyses the forging of economic relations the establishment of commercial exchanges and the creation of companies professional bodies and institutions of collaboration

the second edition of this popular textbook has been conceptually reworked to take account of the instabilities underlying the project of global development while the conceptual framework of viewing development as shifting from a national to a global project remains new issues such as the active engagement in the development project by third world elites and peoples are considered the first four chapters cover the rise and fall of the development project around the world the next three cover the period of globalization from the mid 1980s onwards the final two chapters rethink globalization and development for the 21st century throughout extensive use is made of case studies

the first text that specifically links both international and internal migration with development at a global level the world is divided into a series of functionally

integrated development zones which are identified not simply on the basis of their level of development but also through their spatial patterns and historical experience of migration migration and development stresses the importance of migration in discussing regional rather than simply country differences these variations in mobility are placed within the context of a global hierarchy although regional national and local cultural and social conditions are certainly not ignored in this wide ranging work
